APPENDIX A  
STAFF REPORT  
ON  
BILLING ANALYSIS INSPECTION  
OF  
WEST MARSHALL WATER DISTRICT

On March 14, 1986, West Marshall Water District ("West Marshall") filed an application with the Commission requesting an increase in rates, pursuant to 807 KAR 5:067, Application for Rate Adjustment for Small Utilities.

During the period of May 5, 1986, through May 7, 1986, an on-site billing analysis was performed by Commission Staff Member Carryn Lee, Chief Public Utility Rate Analyst. The staff billing analysis was necessary because West Marshall's application for a rate increase did not include a billing analysis.

After reviewing the results of the billing analysis it was determined that West Marshall's present rates produce annual operating revenue in the amount of \$24,883 and its proposed rates produce annual operating revenue in the amount of \$27,374. The annual report for the test year shows operating income in the amount of \$25,561 which is in an acceptable range of the billing analysis.
