PADDLEWHEEL ALLIANCE OF LOUISVILLE AND UTILITY RATECUTTERS OF KENTUCKY, INC.	)	
	)	
COMPLAINANTS	)	
	)	
v.	)	CASE NO. 9855
	)	
LOUISVILLE GAS AND ELECTRIC COMPANY	)	
	)	
DEFENDANT	)	

ORDER TO SATISFY OR ANSWER

Louisville Gas and Electric Company ("LG&E") is hereby notified that it has been named as Defendant in an emergency formal complaint filed on January 13, 1987, a copy of which is attached hereto. In the complaint Paddlewheel Alliance of Louisville, Kentucky, ("PWA") and Utility Ratecutters of Kentucky, Inc., ("URCK") allege that LG&E's plan entitled "Project Construction Plan - Trimble County Generating Station Unit No. 1" is inconsistent with the October 14, 1985, Order of the Commission. PWA interprets the Order to mean that LG&E should delay all activity at the Trimble County site until the Commission completes its statewide planning investigation. Accordingly, PWA requests the Commission:

- (1) to enter an immediate restraining order to prevent LG&E from spending or committing any additional funds to the Trimble County project;
- (2) to reject LG&E's Project Construction Plan; and

- (3) to order continued delay in the construction until Administrative Case 308 determines the need for Trimble County Unit 1.

The Commission finds that LG&E should respond to this complaint. Also, in order to adequately resolve this matter the Commission believes LG&E should supplement its response to this complaint by providing certain additional information which cannot be readily found in LG&E's plan. The primary purpose of this information is to review the extent of LG&E's financial commitment to the Trimble County project so as to determine the flexibility of incorporating the unit into the Commission's statewide planning effort. First, LG&E should provide the current status of engineering contracts for the sulfur dioxide removal system. Second, LG&E should provide the planned date for synchronization of the Trimble County unit. Third, LG&E should provide any additional updates or revisions to costs or time schedules in LG&E's Project Construction Plan.

IT IS THEREFORE ORDERED that:

1. LG&E shall satisfy the matters complained of herein or file a written answer to the complaint within 10 days from receipt of this Order pursuant to 807 KAR 5:001, Section 12.
2. LG&E shall provide the other information described herein within 30 days from the date of this Order.

Done at Frankfort, Kentucky, this 4th day of February, 197.

PUBLIC SERVICE COMMISSION
