

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

GREEN RIVER ELECTRIC CORPORATION'S)
APPLICATION FOR AN ORDER APPROVING) CASE NO. 10205
PROPOSED RESOLUTION OF UNDERBILLING)
TO TOWN AND COUNTRY MOBILE HOME PARK)

O R D E R

IT IS ORDERED that Green River Electric Corporation ("GREC") shall file an original and 5 copies of the following information with this Commission, and a copy to all parties of record, within 14 days of the date of this Order. If this information cannot be filed by the due date, a motion requesting an extension of time should be filed.

1. In Exhibit 1, page 4, the total KWH billed Town and Country Mobile Home Park ("T&C") by GREC for the calendar years 1984 and 1985 was used to determine the total variance. Since the total KWH billed by T&C to its customers for the period 2/84 - 1/86 was used to determine total variance, why was the total KWH billed T&C by GREC for the same period (2/84-1/86) not used?

2. In reference to Exhibit 1, page 4, total variance of 276% was calculated based on 2 years (1984 and 1985). When applying this variance to a 5-year comparison, is GREC assuming that the discrepancies were constant for the full period being examined? What support does GREC have for assuming the discrepancies were relatively constant over the 5-year period?

3. Explain the discrepancies between columns 4, page 1, and column 3, page 6, of Exhibit 1. Why are the month-to-month and year-to-year differences so great?

4. Please describe the nature of the work performed by Green River in the fall of 1985 at the master meter.

5. Provide the line loss measurements at the substation by which Town and Country is served for each month of the period April 1981 through December 1987.

6. How many other consumers are served by this substation? Provide the monthly loads for those consumers during the period.

7. Furnish a wiring diagram showing the metering method used at the Town and Country Mobile Home park.

8. Were the meter and associated transformers and equipment periodically tested as required by regulation 807 KAR 5:041, Section 15(3)? Furnish the dates of tests and the test data.

Done at Frankfort, Kentucky, this 6th day of July, 1988.
