OF INTRALATA CALLS BY INTEREXCHANGE)	CASE NO. 323
CARRIERS, AND WATS JURISDICTIONALITY)	

O R D E R

On May 3, 1989, GTE South Incorporated ("GTE South") filed an objection to Item 3 of the Attorney General's ("AG") request for information. The basis for GTE South's objection is that the requested information pertains to various local exchange carrier ("LEC") operating companies affiliated with GTE South, and these entities are not before the Commission in these proceedings.

On May 4, 1989, Contel of Kentucky, Inc. ("Contel") filed an objection to Item 3 of the AG's request for information. Contel stated that to the extent that Item 3 seeks information from all of Contel's affiliated LECs in the some 30 other states in which they operate, Contel objects on the grounds that the AG seeks information which is irrelevant to these proceedings, is overly broad, and is unduly burdensome.

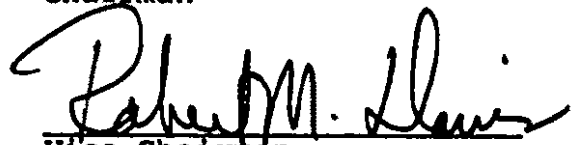

The Commission, having received no response from the AG concerning these objections, is of the opinion that Contel and GTE South should be relieved of any obligation to respond to Item 3 of the AG's data request.

BE IT SO ORDERED.

Done at Frankfort, Kentucky, this 14th day of July, 1989.
