

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF INDEPENDENT	)	
CELLULAR NETWORK, INC. FOR ISSUANCE	)	
OF A CERTIFICATE OF PUBLIC CONVENIENCE	)	CASE NO. 89-039
AND NECESSITY TO CONSTRUCT A CELL SITE	)	
IN GREENUP COUNTY, KENTUCKY	)	

O R D E R

On February 6, 1989, Independent Cellular Network, Inc. ("ICN") filed an application with the Commission for issuance of a Certificate of Public Convenience and Necessity to construct a cellular radio telecommunications antenna tower in Greenup County, Kentucky.

The Commission requested additional information by Order dated March 16, 1989. The response was filed on April 11, 1989.

ICN proposes to construct a cellular radio telecommunications antenna tower in Greenup County, Kentucky ("Cameron Cell Site"). The proposed Cameron Cell Site is to be located on Siloam Branch Road, 4,800 feet south of the intersection with U.S. Route 23. There are no inhabited structures within one-half mile of the proposed cell site. The height of the antenna tip is to be 191 feet above ground level.

On March 7, 1989, the Commission notified the Appalachian Foothill Housing Agency in Russell, Kentucky, of the proposed tower's construction. No comments and/or responses were filed by this agency.

ICN filed an application with the Federal Communications Commission on January 3, 1989. Also, ICN filed an application with the Federal Aviation Administration ("FAA") on October 10, 1988. The FAA approved the proposed construction on January 6, 1989.

The Commission, having considered the evidence of record and being sufficiently advised, is of the opinion that ICN should be granted a Certificate of Public Convenience and Necessity to construct a cellular radio telecommunications tower as described in this Order and ICN's application.

BE IT SO ORDERED.

Done at Frankfort, Kentucky, this 12th day of May, 1989.

PUBLIC SERVICE COMMISSION

  
Chairman

  
Vice Chairman

  
Commissioner
