DETARIFFING BILLING AND)	ADMINISTRATIVE
COLLECTION SERVICES)	CASE NO. 306

O R D E R

On August 8, 1990, GTE South Incorporated ("GTE South") filed a motion for an extension of time to comply with the Commission's April 30, 1990 Order that mandated local exchange carriers to identify the actual carrier of each call being billed. GTE South requests an extension until its November 1990 billing cycle to comply with the Commission's requirement to identify the actual carrier of messages received through clearinghouse agents. In support of its motion, GTE South stated it has encountered unforeseen difficulties in implementing a local program change in its billing system for Kentucky which is necessary to comply with the April 30, 1990 Order. A complex programming change in GTE South's billing system will be necessary, thus requiring the delay.

The Commission, having considered GTE South's motion for an extension of time and having been otherwise sufficiently advised, HEREBY ORDERS that the motion be granted. GTE South shall, by its November 1990 billing, identify the actual IXC carrier of each call being billed on its local bills.

Done at Frankfort, Kentucky, this 5th day of September, 1990.

PUBLIC SERVICE COMMISSION

For the Commission

ATTEST:

Lee M. McCracken
Executive Director
