

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

PURCHASED GAS ADJUSTMENT)	
FILING OF THE UNION LIGHT,)	CASE NO. 9029-X
HEAT AND POWER COMPANY)	

O R D E R

On October 24, 1984, the Commission issued its Order in Case No. 9029 approving certain rates and providing for adjustments of these rates on a quarterly basis in accordance with the provisions of the gas cost adjustment ("GCA") clause set forth therein.

On July 31, 1990, The Union Light, Heat and Power Company ("ULH&P") filed its quarterly gas cost adjustment which is to become effective September 1, 1990 to remain in effect until December 1, 1990.

After reviewing the record in this case and being otherwise sufficiently advised, the Commission finds that:

(1) ULH&P's notice of July 31, 1990 set out certain revisions in rates which ULH&P proposes to place into effect, said rates being designed to pass on to its customers the expected wholesale increase in gas costs from its suppliers in the amount of .1 cents per Mcf including take-or-pay billings. ULH&P's expected gas cost ("EGC") is \$2.879 per Mcf, which includes a take-or-pay recovery component of 9.1 cents per Mcf.

(2) ULH&P's notice set out a total refund adjustment of 11 cents per Mcf. This adjustment returns to its customers remaining

refunds from previous quarters with no current quarter refunds. The change in the total refund adjustment from the previous to the current GCA filing results in a .9 cent per Mcf increase in ULH&P's retail rates.

(3) ULH&P's notice set out a current quarter actual adjustment in the amount of (13.3) cents per Mcf to compensate ULH&P's customers for over-recovery of gas cost through the operation of its gas cost recovery procedure during the months of March, April, and May 1990. The total actual adjustment of 13.8 cents per Mcf, which is designed to correct the current over-collection, as well as under- and over-collections from three previous quarters, results in a 8.9 cent per Mcf decrease in ULH&P's retail rates.

(4) ULH&P's notice set out a current quarter balance adjustment in the amount of (.7) cents per Mcf to reconcile variances from previous actual, refund, and balance adjustments. The total balance adjustment of (3.6) cents per Mcf, which reflects the current as well as the three previous balance adjustments, results in a .3 cent per Mcf increase in ULH&P's retail rates.

(5) The combined effect of the above adjustments is ULH&P's gas cost recovery rate for exempt customers in the amount of \$2.871 per Mcf, which is a decrease of 7.6 cents per Mcf from the previously authorized rate.

(6) ULH&P's adjustment in rates contained in the Appendix to this Order, made pursuant to the GCA provisions approved by the Commission in its Order in Case No. 9029 dated October 24, 1984,

is fair, just, and reasonable, in the public interest, and should be approved to be effective with bills rendered on and after September 1, 1990.

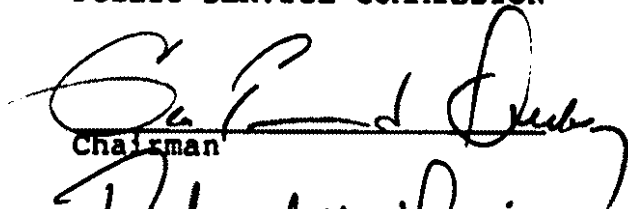

IT IS THEREFORE ORDERED that:

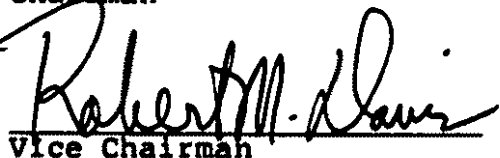

(1) The rates in the Appendix, attached hereto and incorporated herein, are fair, just, and reasonable and are hereby authorized effective with bills rendered on and after September 1, 1990.

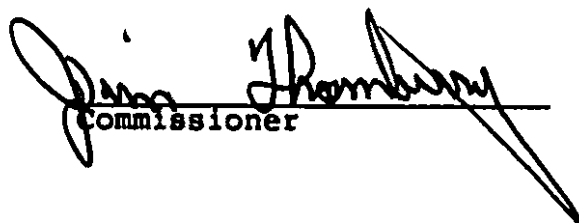

(2) Within 30 days of the date of this Order, ULH&P shall file with this Commission its revised tariffs setting out the rates authorized herein.

Done at Frankfort, Kentucky, this 31st day of August, 1990.
