

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

REMOVAL OF THIRD STREET SANITATION,)	
INC. FROM PUBLIC SERVICE COMMISSION)	CASE NO.
JURISDICTION)	90-129

O R D E R

Third Street Sanitation, Inc. ("Third Street") operated a small-package sewage treatment plant in Jefferson County, Kentucky, until September of 1986. At that time, the Louisville/Jefferson County Metropolitan Sewer District ("MSD") connected its sewage lines to Third Street's collector system. Though Third Street's sewage treatment plant still stands, it no longer treats any sewage.

Commission approval of the MSD connection was neither sought nor required. Under the terms of Third Street's Kentucky Pollutant Discharge Elimination System ("KPDES") permit, its lines were required to be connected to MSD's lines when MSD extended into that area of Jefferson County. MSD did not purchase any of Third Street's assets or stock. Because no transfer of utility ownership occurred, KRS 278.020(4) does not apply.

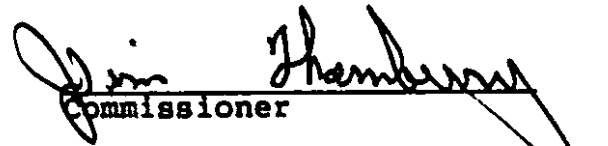

The Commission finds that Third Street is no longer an operating utility under Commission jurisdiction. IT IS THEREFORE ORDERED that Third Street shall be removed from Commission records as an operating public utility.

Done at Frankfort, Kentucky, this 21st day of May, 1990.
