

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

TARIFF FILING OF MCI TELE-)
COMMUNICATIONS CORPORATION TO)
INTRODUCE METERED USE SERVICE) CASE NO. 90-253
OPTION J-MCI VISION)

O R D E R

On August 10, 1990, MCI Telecommunications Corporation ("MCI") filed a tariff with the Public Service Commission ("Commission") seeking permission to introduce Metered Use Service Option J (MCI Vision Service). MCI proposed to make the tariff effective September 10, 1990.

On August 22, 1990, South Central Bell Telephone Company ("SCB") filed a motion to intervene based on the premise that MCI Vision Service can generate unauthorized intraLATA traffic and that it should be subject to: (1) any compensation arrangement that may be ordered in Administrative Case 323;¹ and (2) usage reporting requirements ordered in the case of similar tariff filings.

¹ Administrative Case No. 323, An Inquiry Into IntraLATA Toll Competition, An Appropriate Compensation Scheme for Completion of IntraLATA Calls by Interexchange Carriers, and WATS Jurisdictionality.

MCI Vision Service is a one-way customized telecommunications service which provides a unified service for single or multi-location companies using switched, dedicated, and card origination, and switched termination. This service is generically similar to other service offerings that have been approved by the Commission.² Other related service offerings that are capable of generating "unauthorized" intraLATA traffic have also been approved.³

The Commission, having considered the tariff and being sufficiently advised, HEREBY ORDERS that:

1. SCB's motion to intervene is granted.
2. MCI's proposed tariff shall be made effective pursuant to the provisions of 807 KAR 5:011, Section 9(1), subject to any compensation arrangement that may be ordered in Administrative Case No. 323.

² AT&T Megacom 800 Service was approved in Case No. 9874, AT&T Tariff Filing Proposing Megacom/Megacom 800 Service; AT&T Readyline 800 Service was approved in Case No. 10106, AT&T Tariff Filing Proposing AT&T Readyline 800 Service; and MCI 800 Service was approved in Case No. 10049, MCI's Tariff Filing to Introduce Metered Use Option H.

³ These include AT&T's Software Defined Network Service, approved in Case No. 9518, AT&T Communications' Tariff Proposal for Software Defined Network Service; AT&T Megacom Service, approved in Case No. 9874; MCI's Prism I and Prism II Service, approved in Case No. 9828, MCI's Tariff Filing to Establish Prism Plus, Prism I, and Prism II Services, MCI Prism III Service, which became effective pursuant to 807 KAR 5:011, Section 9(1); US Sprint UltraWATS and Advanced WATS Services, approved in Case No. 9902, US Sprint's Tariff Filing Proposing to Rename its WATS Products, Change Billing Calculation Methods for WATS, Introduce UltraWATS, Travelcard, Direct 800 and Ultra 800, and US Sprint Banded WATS Service, which became effective pursuant to 807 KAR 5:011, Section 9(1).

3. MCI shall measure and report interstate and intrastate jurisdictional usage and interLATA and intraLATA usage associated with MCI Vision Service and file usage reports with the Commission on a quarterly basis.

4. MCI shall inform MCI Vision customers that their use of the service to complete intraLATA calls is not authorized by the Commission.

Done at Frankfort, Kentucky, this 11th day of September, 1990.
