

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

PURCHASED WATER ADJUSTMENT OF )  
MARION COUNTY WATER DISTRICT ) CASE NO. 91-333

O R D E R

On September 13, 1991, Marion County Water District ("Marion") filed its revised tariff with the Public Service Commission ("Commission") for the purpose of adjusting its rates pursuant to the purchased water adjustment procedure, KRS 278.015 and 807 KAR 5:068.

The Commission, having reviewed the evidence of record and being otherwise sufficiently advised, finds that:

1. Marion purchases water from Lebanon Water Works Company, Inc. ("Lebanon Water"). Prior to this case, Lebanon Water billed Marion on a four-step declining block rate schedule based on units measured in cubic feet. Lebanon Water has changed the rate structure it charges to its wholesale customers to a flat fee based on units measured in 100 cubic feet. Additionally, a flat fee is charged for each meter.

2. Effective December 1, 1991, Lebanon Water will increase its rate to Marion by approximately 63 cents per 100 cubic feet or 84 cents per 1,000 gallons. The total increase in purchased water costs will result in an increase to the average monthly bill from \$20.70 to \$28.29, which is an increase of 36.67 percent.

3. Marion proposes to increase the rates to its customers effective December 1, 1991.

4. During the 12 months ending August 31, 1991, Marion purchased 39,366,390 cubic feet of water (294,460,597 gallons)<sup>1</sup> and sold 228,016,383 gallons.

5. Due to a rounding error, Marion's purchased water adjustment factor is incorrect. The increase in the cost of purchased water is \$246,804, resulting in a purchased water adjustment of \$1.08 per 1,000 gallons as shown in Appendix B, attached hereto and incorporated herein.

6. The purchased water adjustment of \$1.08 per 1,000 gallons and the rates shown in Appendix A, attached hereto and incorporated herein, are fair, just, and reasonable and should be approved.

IT IS THEREFORE ORDERED that:

1. The rates and tariff proposed by Marion are denied.

2. The purchased water adjustment of \$1.08 per 1,000 gallons and the rates in Appendix A are approved for services rendered on and after December 1, 1991.

3. Within 30 days of the date of this Order, Marion shall file its revised tariff sheet setting out the rates approved herein.

4. Within 20 days of the date rates approved herein are placed into effect, Marion shall file a copy of the notice and verification that notice has been given to its customers.

---

<sup>1</sup> 39,366,390 cubic feet x 7.48 = 294,460,597.2 gallons.
