

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE NOTICE OF PURCHASED GAS)	
ADJUSTMENT FILING OF LOUISVILLE)	CASE NO. 90-158-G
GAS AND ELECTRIC COMPANY)	

O R D E R

On December 21, 1990, the Commission issued its Order in Case No. 90-158 approving certain adjustments in rates and providing under certain conditions for the further adjustment of such rates on a quarterly basis in accordance with the provisions of the gas supply clause ("GSC") set forth therein.

On July 1, 1992, Louisville Gas and Electric Company ("LG&E") filed its quarterly GSC, which is to become effective August 1, 1992 and is to remain in effect through October 31, 1992.

After reviewing the record in this case and being otherwise sufficiently advised, the Commission finds that:

1. LG&E's notice of July 1, 1992 set out certain revisions in rates which LG&E proposed to place into effect, said rates being designed to pass on to its customers the expected wholesale increase in gas costs from its suppliers in the average amount of 2.557 cents per 100 cubic feet, including take-or-pay billings. LG&E's expected gas supply cost for the quarter beginning August 1, 1992 is 26.508 cents per 100 cubic feet, or \$2.6508 per Mcf.

2. LG&E's notice reflected no refund factor.

3. LG&E proposed a current quarter actual adjustment of (.099) cents per 100 cubic feet to compensate for over-recovery of gas cost by the Company through the operation of its gas cost recovery procedure during the months of February, March, and April 1992. The total actual adjustment of (.452) cents per 100 cubic feet, which is designed to correct the current over-recovery as well as under- and over-collections from three previous quarters, results in a 1.328 cent per 100 cubic feet increase in LG&E's retail rates from last quarter.

4. LG&E proposed a balance adjustment in the amount of (.591) cents per 100 cubic feet, which replaces the previous adjustment of (.154) cents. This balance adjustment compensates for over-collections which occurred as a result of previous actual and balance adjustments and includes amounts remaining to be refunded from the refund factor established in Case No. 90-158-B.¹ The effect on retail rates is a .437 cent per 100 cubic feet decrease.

5. The combined effect of the above adjustments is LG&E's proposed total gas supply cost component of 25.465 cents per 100 cubic feet, an increase from its last approved GSC of 3.448 cents per 100 cubic feet, or 34.48 cents per Mcf. This increase represents the combined effect of the supplier increase, actual, balance, and refund adjustments.

¹ Case No. 90-158-B, the Notice of Purchased Gas Adjustment Filing of Louisville Gas and Electric Company, Order dated May 1, 1991.

6. The adjustment in rates set out in the Appendix to this Order, determined under the GSC provisions approved by the Commission in its Order in Case No. 90-158 dated December 21, 1990, is fair, just, and reasonable, in the public interest, and should be effective with gas supplied on and after August 1, 1992.

IT IS THEREFORE ORDERED that:

1. The rates in the Appendix, attached hereto and incorporated herein, are fair, just, and reasonable and are approved effective with gas supplied on and after August 1, 1992.

2. Within 30 days from the date of this Order, LG&E shall file with this Commission its revised tariffs setting out the rates authorized herein.

Done at Frankfort, Kentucky, this 31st day of July, 1992.
