

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE NOTICE OF PURCHASED GAS	)	
ADJUSTMENT FILING OF LOUISVILLE	)	CASE NO. 90-158-H
GAS AND ELECTRIC COMPANY	)	

O R D E R

On December 21, 1990, the Commission issued its Order in Case No. 90-158 approving certain adjustments in rates and providing under certain conditions for the further adjustment of such rates on a quarterly basis in accordance with the provisions of the gas supply clause ("GSC") set forth therein.

On October 1, 1992, Louisville Gas and Electric Company ("LG&E") filed its quarterly GSC, which is to become effective November 1, 1992 and is to remain in effect through January 31, 1993.

After reviewing the record in this case and being otherwise sufficiently advised, the Commission finds that:

1. LG&E's notice of October 1, 1992 set out certain revisions in rates which LG&E proposed to place into effect, said rates being designed to pass on to its customers the expected wholesale increase in gas costs from its suppliers in the average amount of 6.322 cents per 100 cubic feet, including take-or-pay billings. LG&E's expected gas supply cost for the quarter beginning November 1, 1992 is 32.830 cents per 100 cubic feet, or \$3.2830 per Mcf.

2. LG&E's notice reflected no refund factor.

3. LG&E proposed a current quarter actual adjustment of .225 cents per 100 cubic feet to compensate for under-recovery of gas cost by the Company through the operation of its gas cost recovery procedure during the months of May, June, and July 1992. The total actual adjustment of (.228) cents per 100 cubic feet is designed to correct the current under-recovery as well as under- and over-collections from three previous quarters.

4. LG&E proposed a balance adjustment in the amount of .342 cents per 100 cubic feet, which replaces the previous adjustment of (.591) cents. This balance adjustment compensates for under-collections which occurred as a result of previous actual and balance adjustments.

5. The combined effect of the above adjustments is LG&E's proposed total gas supply cost component of 32.944 cents per 100 cubic feet, an increase from its last approved GSC of 7.479 cents per 100 cubic feet, or 74.79 cents per Mcf. This increase represents the combined effect of the supplier increase, actual, balance, and refund adjustments.

6. The adjustment in rates set out in the Appendix to this Order, determined under the GSC provisions approved by the Commission in its Order in Case No. 90-158 dated December 21, 1990, is fair, just, and reasonable, in the public interest, and should be effective with gas supplied on and after November 1, 1992.

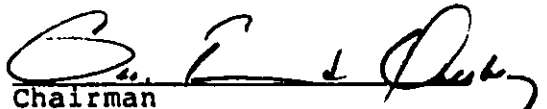

IT IS THEREFORE ORDERED that:

1. The rates in the Appendix, attached hereto and incorporated herein, are fair, just, and reasonable and are approved effective with gas supplied on and after November 1, 1992.

2. Within 30 days from the date of this Order, LG&E shall file with this Commission its revised tariffs setting out the rates authorized herein.

Done at Frankfort, Kentucky, this 29th day of October, 1992.
