O R D E R

On April 30, 1992, Kentucky Utilities Company ("KU") filed a motion requesting the Commission to amend its January 31, 1992 Order by extending from May 1, 1992 to November 1, 1992 the filing date of KU's application for a Certificate of Public Convenience and Necessity to construct a natural gas pipeline to serve combustion turbines at the E. W. Brown Generating Station ("Brown").

In support of the motion, KU states that it is presently evaluating proposals submitted by four natural gas suppliers regarding the proposed pipeline and that, until an agreement with one of the suppliers is finalized, it will not possess the information required by 807 KAR 5:001, Section 9, to apply for a Certificate of Public Convenience and Necessity. KU estimates that such an agreement cannot be finalized before approximately November 1, 1992 and opines that the requested six month extension

will not prevent the pipeline from being in service coincident with the initial operation of the combustion turbines in 1994. Finally, KU states that it is proceeding in this matter as expeditiously as possible and will continue to do so in the future.

After consideration of the motion and being advised, the Commission finds that KU's request is reasonable and should be approved.

IT IS THEREFORE ORDERED that the Commission's January 31, 1992 Order be and it hereby is amended to the extent that KU shall file an application for a Certificate of Public Convenience and Necessity to construct a natural gas pipeline to serve the Brown site by November 1, 1992 and all other provisions of that Order shall remain in full force and effect.

Done at Frankfort, Kentucky, this 3rd day of June, 1992.
