

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF AT&T COMMUNICATIONS OF )  
THE SOUTH CENTRAL STATES, INC. TO ADJUST ) CASE NO. 91-425  
ITS RATES AND CHARGES )

O R D E R

On January 29, 1992, the Commission received a motion for approval of proposed rate changes from AT&T Communications of the South Central States, Inc. ("AT&T"). AT&T filed proposed tariffs on December 16, 1991 with the reduction of \$14,762 as the estimated overall revenue impact. Further information is needed before the Commission may adequately consider AT&T's motion.

IT IS ORDERED that AT&T shall file the original and 12 copies of the following information with the Commission with a copy to all parties of record within seven days of the date of this Order. If the information cannot be provided by this date, AT&T should submit a motion for an extension of time stating the reason a delay is necessary and include a date by which it will be furnished. Such motion will be considered by the Commission.

1. What is the maximum increase in rates any customer will experience as a result of the tariff proposed herein? Specifically provide the maximum increase to be experienced by voice grade Private Line customers from the increase in the central office connection charge.

2. In the motion for approval of rate changes, AT&T states that there is a significant market demand for the lower rates proposed for AT&T's ALL PRO WATS. AT&T further asserts that it needs to make the rate adjustments as soon as possible to timely respond to the pressures of a competitive marketplace. By these assertions, is AT&T requesting only that the rate reductions become effective immediately while the rate increases are considered by the Commission?

Done at Frankfort, Kentucky, this 5th day of February, 1992.
