COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF BOONE COUNTY WATER)	
AND SEWER DISTRICT FOR CONSTRUCTION OF)	CASE NO
THE RYLE HIGH SCHOOL SANITARY SEWER	j	92-033
INTERCEPTOR LINE	i	

ORDER

Boone County Water and Sewer District ("Boone Water") by its application filed January 21, 1992 is seeking a Certificate of Public Convenience and Necessity for a proposed \$392,790 sewage system project. The proposed construction consists of 6,550 linear feet of 12-inch pipeline, 3,983 linear feet of 6-inch pipeline, a lift station and related appurtenances. This should allow Boone Water to serve approximately 119 single family residential customers and Ryle High School.

Drawings for the proposed improvements prepared by Viox & Viox, P.S.C. of Erlanger, Kentucky ("Engineer"), have been approved by the Division of Water of the Natural Resources and Environmental Protection Cabinet.

The Commission, having received the application, the information submitted subsequent thereto, and being otherwise sufficiently advised, finds that:

 Public convenience and necessity require that the construction proposed be performed and that a Certificate of Public Convenience and Necessity be granted.

- 2. The proposed construction includes 6,550 linear feet of 12-inch pipeline, 3,983 linear feet of 6-inch pipeline, a lift station and miscellaneous appurtenances.
- 3. Any deviations from the construction approved should be undertaken only with the prior approval of the Commission.
- 4. Boone Water should obtain approval from the Commission prior to performing any additional construction not expressly certificated by this Order.
- 5. Boone Water should furnish duly verified documentation of the total costs of this project including the cost of construction and all other capitalized costs (engineering, legal, administrative, etc.) within 60 days of the date that construction is substantially completed. Said construction costs should be classified into appropriate plant accounts in accordance with the Uniform System of Accounts for Sewage Utilities prescribed by the Commission.
- 6. Boone Water's contract with its Engineer should require the provision of construction inspection under the general supervision of a professional engineer with a Kentucky registration in civil or mechanical engineering to ensure that the construction work is done in accordance with the contract plans and specifications and in conformance with the best practices of the construction trades involved in the project.
- 7. Boone Water should require the Engineer to furnish a copy of the "as-built" drawings and a signed statement that the construction has been satisfactorily completed in accordance with

the contract plans and specifications within 60 days of the date of substantial completion of this construction.

IT IS THEREFORE ORDERED that:

- 1. Boone Water be and it hereby is granted a Certificate of Public Convenience and Necessity to proceed with the proposed construction as set forth in the plans of record herein.
- 2. Boone Water shall comply with all matters set out in Findings 3 through 7 as if the same were individually so ordered.
- 3. This Order grants a certificate for the construction of facilities only and does not approve any plan of financing or proposed rates.

Done at Frankfort, Kentucky, this 21st day of February. 1992.
