Dear Sir:

This letter is in reference to Case No. 93-025 filed with your office by Alpha Cellular Telephone Company.

I wish to voice my request for intervention in the proposed construction of a tower and antenna by the above mentioned company. The site for construction is located on Lick Creek, off US Hwy 23 S, out of the city limits of Louisa, KY.

My reasons for intervention are as follows:

- 1) I own a newly-constructed frame home adjoining the site the proposed tower would be built on. This site is only approximately two hundred feet from my home. Not my lot--my home. I purchased the property and built the home prior to the Alpha Cellular Telephone Company arranging to lease the site on the lot adjoining mine. I don't wish to view a tower extending 200 feet into the sky while I sit on my front porch. The aesthetics of this distresses me.
- 2) I am concerned this tower may lower my property value if I should decide to sell this property in the future.
- 3) I have reservations about the safety of the structure.

I would appreciate being given more information about the proposed tower. Specifically--

- 1) Where exactly on the 80' by 80' square leased from Mr. Hylton will the tower be located?
- 2) What other construction will be on the site (i.e. buildings, fencing, etc.)?
- 3) How will the site be maintained and with what frequency?
- 4) How long is the lease? What if the company goes out of business? Will the tower then be dismantled?

Until such time as these questions are answered to my satisfaction, I cannot condone the construction of this tower. I respectfully request that the Public Service Commission consider any rights I may have as an adjoining landowner.

I await your reply.

Sincerely,

Margaret DeChant
