O R D E R

On April 20, 1993, the Commission received an application from Independent Cellular Network ("ICN") to revise its tariff to reduce certain rates and provide a new rate plan. On April 27, 1993, ICN withdrew its original application and submitted a revised application. ICN proposes to reduce certain rates and provide two new rate plans. In its application, ICN requested that the Commission waive the 30-day notice period and any requirement of publication of notice.

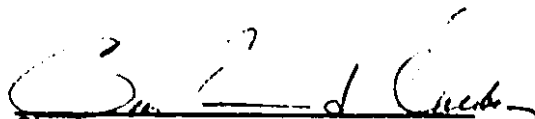

ICN is classified as a non-dominant carrier. Therefore, its requested waivers are unnecessary.

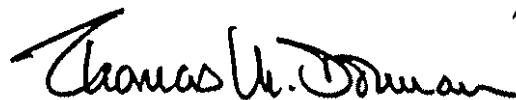

Based upon the foregoing, IT IS THEREFORE ORDERED that:

1. This case is hereby dismissed.
2. ICN's requested tariff provisions shall be reviewed by the Commission through the appropriate process in a timely manner.
