Licking Valley Rural Electric Cooperative Corporation ("Licking Valley") filed its application on July 9, 1993 for a Certificate of Public Convenience and Necessity to construct certain improvements and additions to its existing plant at a cost of \$3,907,350. In support of its application, Licking Valley filed its 1993-1995 Work Plan which describes in detail the improvements and additions to its plant that are required over the next 2 years to serve its load.

Licking Valley seeks authorization to construct extensions and additions to its plant as follows:

1. Consumer line construction	\$	889,000

The proposed construction will enable Licking Valley to continue to provide adequate and dependable electric service to its consumers. The system improvements recommended in this Work Plan will not duplicate existing facilities and are needed to correct

voltage problems, improve phase balance, and provide for improved service reliability.

IT IS THEREFORE ORDERED that Licking Valley be and it hereby is granted a Certificate of Public Convenience and Necessity to construct the facilities described in its 1993-1995 Work Plan.
