

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ROBIN S. DUFFY

COMPLAINANT

VS.

GTE SOUTH INCORPORATED

DEFENDANT

)
)
)
) CASE NO. 93-318
)
)
)

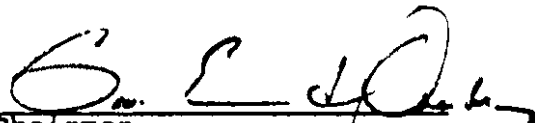

O R D E R

On October 25, 1993, GTE South Incorporated ("GTE") responded to a data request issued by the Commission on October 8, 1993. GTE's response indicates the Communications Technologies 9925 Test Set was performed on Mr. Duffy's two lines on September 29, 1993. Pursuant to 807 KAR 5:061, the maximum permissible DB Loss is 8.5. Mr. Duffy's lines had losses of 8 and 7.8 respectively, and thus were within acceptable limits prescribed by Commission regulation. GTE also submitted a copy of the bill crediting \$56.57 to Mr. Duffy's account.

It appearing to the Commission that this matter has been resolved and being otherwise sufficiently advised, IT IS HEREBY ORDERED that this case be automatically closed on November 15, 1993 unless the Commission receives written notification from Mr. Duffy that he is not satisfied with GTE's response and he requests, with specificity, the additional relief to which he believes he is entitled.

Done at Frankfort, Kentucky, this 2nd day of November, 1993.
