O R D E R

Pursuant to Commission Regulation 807 KAR 5:056, the Commission on December 27, 1993 established this case to review and evaluate the operation of the fuel adjustment clause ("FAC") of Louisville Gas and Electric Company ("LG&E") for the 6 months ended October 31, 1993.

As part of its review, LG&E, pursuant to Commission Order, submitted certain information concerning its compliance with Commission Regulation 807 KAR 5:056. A public hearing was held on February 17, 1994.

The Commission has previously established LG&E's base fuel cost at 12.57 mills per Kwh.¹ A review of LG&E's monthly fuel clause filings shows that the actual fuel cost incurred for the 6-month period under review ranged from a low of 11.63 mills in October 1993 to a high of 12.52 mills in July 1993, with a 6-month average of 12.16 mills.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds no evidence of improper calculation or application of LG&E's FAC charge or improper fuel procurement practices.

IT IS THEREFORE ORDERED that the charges and credits billed by LG&E through its FAC for the period May 1, 1993 to October 31, 1993 be and they hereby are approved.
