

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF TOYODA SUPPORT)
SERVICES, INC. FOR A CERTIFICATE)
OF PUBLIC CONVENIENCE AND NECESSITY)
TO ENLARGE ITS LONGVIEW SEWAGE) CASE NO. 94-190
TREATMENT PLANT TO ACCOMMODATE)
NEW PHASE OF ITS DEVELOPMENT IN)
THE HOMESTEAD SUBDIVISION)

O R D E R

By application filed May 12, 1994, Toyoda Support Services, Inc. ("Toyoda Services") is seeking a Certificate of Public Convenience and Necessity for a proposed expansion of its sewage treatment plant. The proposed construction consists of an additional 50,000-gallon per day ("gpd") wastewater treatment plant and related appurtenances. Toyoda Services will pay for the costs of construction of this expansion. The proposed construction is expected to serve 75 additional residential customers.

Drawings for the proposed improvements prepared by Thoroughbred Engineering, Inc. of Georgetown, Kentucky ("Engineer"), have been approved by the Division of Water of the Natural Resources and Environmental Protection Cabinet.

The Commission, having reviewed the application, the information submitted subsequent thereto, and being otherwise sufficiently advised, finds that:

1. Public convenience and necessity require that the proposed construction be performed and that a Certificate of Public Convenience and Necessity be granted.

2. The proposed construction consists of installation of 5,562 linear feet of 8- and 4-inch diameter pipelines and 16 manholes, and expansion of the wastewater treatment plant from 50,000 gpd to 100,000 gpd.

3. Any deviations from the construction approved should be undertaken only with the prior approval of the Commission.

4. Toyoda Services should obtain approval from the Commission prior to performing any additional construction not expressly certificated by this Order.

5. Toyoda Services should furnish duly verified documentation of the total costs of this project including the cost of construction and all other capitalized costs (ie., engineering, legal, administrative) within 60 days of the date that construction is substantially completed. Said construction costs should be classified into appropriate plant accounts in accordance with the Uniform System of Accounts for Sewage Utilities prescribed by the Commission.

6. Toyoda Services' contract with its Engineer should require the provision of construction inspection under the general supervision of a professional engineer with a Kentucky registration in civil or mechanical engineering to ensure that the construction

work is done in accordance with the contract plans and specifications and in conformance with the best practices of the construction trades involved in the project.

7. Toyoda Services should, within 60 days of the date of substantial completion of this construction, furnish a copy of the "as-built" drawings and a statement signed by the Engineer that the construction has been satisfactorily completed in accordance with the contract plans and specifications.

IT IS THEREFORE ORDERED that:

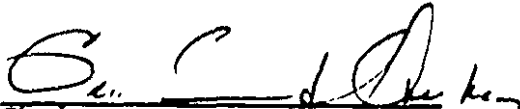

1. Toyoda Services be and it hereby is granted a Certificate of Public Convenience and Necessity to proceed with the proposed construction as set forth in the plans of record herein.

2. Toyoda Services shall comply with all matters set out in Findings 3 through 7 as if the same were individually so ordered.

3. This Order grants a certificate for the construction of facilities only and does not approve any plan of financing or rates.

Done at Frankfort, Kentucky, this 15th day of July, 1994.
