

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF THE MEADE COUNTY)	
WATER DISTRICT, WATER DISTRICT ORGANIZED)	
PURSUANT TO CHAPTER 74 OF THE KENTUCKY)	
REVISED STATUTES, MEADE COUNTY, KENTUCKY,)	
FOR (1) A CERTIFICATE OF PUBLIC)	CASE NO.
CONVENIENCE AND NECESSITY, AUTHORIZING)	94-512
AND PERMITTING SAID WATER DISTRICT TO)	
CONSTRUCT AN EXTENSION OF ITS WATERWORKS)	
DISTRIBUTION, AND (2) APPROVAL OF THE)	
PROPOSED PLAN OF FINANCE OF SAID PROJECT)	

O R D E R

By application filed March 17, 1995, Meade County Water District ("Meade Water") is seeking authorization to construct a \$1,005,000 waterworks improvement project, and approval of its plan of financing for this project. Project funding includes a \$900,000 loan from the Kentucky Association of Counties Leasing Trust ("KACoLT") and \$105,000 from applicants for service in the project area. The loan will be for a 20-year period at an interest of 6 percent per annum.

The proposed construction will provide water service to about 350 additional customers. Plans and specifications for the proposed improvements prepared by Derrick Engineering, Inc. of Louisville, Kentucky ("Engineer"), have been approved by the Division of Water of the Natural Resources and Environmental Protection Cabinet.

The Commission, having reviewed the evidence of record and being otherwise sufficiently advised, finds that:

1. Public convenience and necessity require that the construction proposed be performed and that a Certificate of Public Convenience and Necessity be granted.

2. The proposed construction consists of about 12.3 miles of 8-inch diameter pipelines, and related appurtenances. After allowances are made for fees, contingencies, and other indirect costs, the total cost of this project is approximately \$1,005,000.

3. Meade Water should monitor the adequacies of the expanded water distribution system after construction. If the level of service is inadequate or declining or the pressure to any customer is outside the requirements of 807 KAR 5:066, Section 5(1), Meade Water should take immediate action to maintain the level of service in conformance with the regulations of the Commission.

4. Meade Water should only install fire hydrants in those instances where the installation complies with the requirements of 807 KAR 5:066, Section 10(2)(b).

5. Meade Water should obtain approval from the Commission prior to performing any additional construction not expressly authorized by this Order.

6. Any deviation from the construction approved should be undertaken only with the prior approval of the Commission.

7. Meade Water should furnish documentation of the total costs of this project including the cost of construction and all other capitalized costs (engineering, legal, administrative, etc.) within 60 days of the date that construction is substantially completed. Construction costs should be classified into

appropriate plant accounts in accordance with the Uniform System of Accounts for Water Utilities prescribed by the Commission.

8. Meade Water should require construction to be inspected under the general supervision of a professional engineer with a Kentucky registration in civil or mechanical engineering, to ensure that the construction work is done in accordance with the contract drawings and specifications and in conformance with the best practices of the construction trades involved in the project.

9. Meade Water should furnish, within 60 days of the date of substantial completion of this construction, a copy of "as-built" drawings and a signed statement of the Engineer that the construction has been satisfactorily completed in accordance with the contract plans and specifications.

10. The financing plan proposed by Meade Water is for lawful objects within the corporate purpose of its utility operations, is necessary and appropriate for and consistent with the proper performance of the utility's service to the public and will not impair its ability to perform that service, and is reasonably necessary and appropriate for such purpose. It should therefore be approved.

IT IS THEREFORE ORDERED that:

1. Meade Water be and it hereby is granted a Certificate of Public Convenience and Necessity to proceed with the proposed construction project as set forth in the drawings and specifications of record herein.

2. Meade Water shall comply with requirements contained in Findings 3 through 10.

Done at Frankfort, Kentucky, this 27th day of July, 1995.
