GENERAL COUNSEL

Re: Case No. 95-004

To whom it may concern,

As a property owner directly affected by the proposed construction of the 163' Cellular One tower, I would like to go on record **OPPOSING** the construction of this tower and the associated building.

By this letter, I am requesting intervention by the Public Service Commission of Kentucky and the ability to exercise any rights available to me to stop the proposed construction of the tower.

Specifically, I am opposed to the tower for the following reasons:

1. Due to it's close proximity to our property, it will cause problems with our fire training programs in utilizing the services of the local helicopter ambulance services.
2. We are concerned about health risks associated with microwave equipment.
3. The tower will not be esthetically pleasing to the Community and will lower property values of our property and those surrounding ours. Furthermore, this tower is being located in a completely residential area.

Sincerely,

Paul C. Barth
Fire Chief
