CELL SITE IN LEXINGTON, KENTUCKY FOR THE)	
PROVISION OF DOMESTIC PUBLIC CELLULAR)	
RADIO TELECOMMUNICATIONS SERVICE TO THE)	
PUBLIC IN THE LEXINGTON MSA)	

O R D E R

On June 14, 1995, Lexington MSA Limited Partnership d/b/a BellSouth Mobility, Inc. ("Lexington MSA Partnership") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a cellular radio telecommunications facility in the Lexington Metropolitan Statistical Area ("Lexington MSA"). The proposed cell site consists of a monopole not to exceed 200 feet in height, with attached antennas, to be located at 479-B Haggard Lane, Lexington, Fayette County, Kentucky. The coordinates for the proposed cell site are North Latitude 38° 4' 39.28" by West Longitude 84° 27' 39.78".

Lexington MSA Partnership has provided information regarding the structure of the monopole, safety measures, and antenna design criteria for the proposed cell site. Based upon the application, the design of the monopole and foundation appears to meet the criteria of the Building Officials and Code Administrators

International, Inc. National Building Code, with reference to earthquakes, winds, and tornadoes.

Pursuant to KRS 100.324(1), the proposed cell site's construction is exempt from local zoning ordinances. However, Lexington MSA Partnership has notified the Lexington-Fayette Urban County Planning Commission of the proposed construction. Lexington MSA Partnership has filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the proposed cell site. Both decisions are pending.

Lexington MSA Partnership has filed notices verifying that each person who owns property or resides within 500 feet of the proposed cell site has been notified of the pending construction. The notice solicited any comments and informed the property owners and residents of their right to intervene. In addition, notice was posted in a visible location on the proposed site for at least two weeks after Lexington MSA Partnership's application was filed. The Lexington-Fayette Urban County Government filed comments in this proceeding but no request for intervention was submitted.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, Lexington MSA Partnership should notify the Commission if it does not use this monopoly to provide cellular

radio telecommunications services in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused monopole, which should be observed by Lexington MSA Partnership.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Lexington MSA Partnership should be granted a Certificate of Public Convenience and Necessity to construct and operate the proposed cell site in the Lexington MSA under its currently approved tariff.

IT IS THEREFORE ORDERED that:

1. Lexington MSA Partnership be and it hereby is granted a Certificate of Public Convenience and Necessity to construct and operate a monopole not to exceed 200 feet in height, with attached antennas, to be located at 479-B Haggard Lane, Lexington, Fayette County, Kentucky. The coordinates for the proposed cell site are North Latitude 38° 4' 39.28" by West Longitude 84° 27' 39.78".

2. Lexington MSA Partnership shall file a copy of the final decisions regarding its pending FAA and KAZC applications for the proposed construction within 10 days of receiving these decisions.

3. Lexington MSA Partnership shall immediately notify the Commission in writing, if, after the monopole is built and utility service is commenced, the monopole is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 10th day of August, 1995.
