

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF LITCHFIELD COUNTY CELLULAR,)	
INC. FOR ISSUANCE OF A CERTIFICATE OF PUBLIC)	CASE NO.
CONVENIENCE AND NECESSITY TO CONSTRUCT)	95-256
ADDITIONAL CELL FACILITIES IN KENTUCKY RURAL)	
SERVICE AREA NO. 11 (HOOKER CELL FACILITY))	

O R D E R

On June 13, 1995, Litchfield County Cellular, Inc. ("Litchfield Cellular") filed an application seeking a Certificate of Public Convenience and Necessity to build and operate a cellular radio telecommunications system for Rural Service Area No. 11 ("RSA No. 11"). RSA No. 11 includes Bell, Clay, Harlan, Knox, Leslie, and Whitley counties. Litchfield Cellular has requested authorization to construct a cell site in Clay County. Litchfield Cellular was previously granted authority to operate a cellular radio telecommunications system in RSA No. 11 in Case No. 94-006.¹

The proposed cell site consists of a 300-foot or less self-supporting antenna tower to be located on a ridge crest approximately 5,000 feet north of the intersection of Ky. Route 80 and House Branch Road, approximately four miles southwest of the community of Manchester, Clay County, Kentucky ("the Hooker cell

¹ Case No. 94-006, The Joint Application of Contel Cellular of Kentucky B, Inc. and Litchfield County Cellular, Inc. for Approval to Transfer and Acquire Control of the Cellular Telephone Utility in Kentucky Rural Service Area No. 11.

site"). The coordinates for the Hooker cell site are North Latitude 37° 07' 43.5" by West Longitude 83° 50' 14".

Litchfield Cellular has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the Hooker cell site. Based upon the application, the design of the tower and foundation appears to meet the criteria of the Building Officials and Code Administrators International, Inc. National Building Code with reference to earthquakes, winds, and tornadoes.

Pursuant to KRS 100.324(1), the Hooker cell site's construction is exempt from local zoning ordinances; however, Litchfield Cellular notified the Clay County Judge/Executive of the pending construction. Litchfield Cellular has filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the Hooker cell site. Both applications are still pending. Public notification is not required, as the only persons owning property or residing within 500 feet of the Hooker cell site are the lessors of the property.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, Litchfield Cellular should notify the Commission if it does not use this antenna tower to provide cellular radio

telecommunications services in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by Litchfield Cellular.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Litchfield Cellular should be granted a Certificate of Public Convenience and Necessity to construct and operate the Hooker cell site in RSA No. 11 under its previously approved tariff.

IT IS THEREFORE ORDERED that:

1. Litchfield Cellular be and it hereby is granted a Certificate of Public Convenience and Necessity to construct and operate the Hooker cell site.

2. Litchfield Cellular shall file a copy of the final decisions regarding the pending FAA and KAZC applications for this cell site construction within 10 days of receiving these decisions.

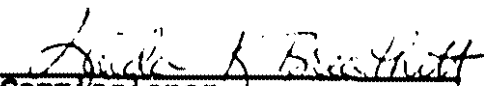

3. Litchfield Cellular shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 28th day of July, 1995.
