

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF GREEN MEADOWS)	
ASSOCIATES, INC. FOR APPROVAL TO)	CASE NO.
ABANDON THE GREEN MEADOWS SUBDIVISION)	95-271
SEWAGE TREATMENT PLANT)	

O R D E R

Green Meadows Associates, Inc. ("Green Meadows") has applied for approval to abandon the Green Meadows Subdivision Sewage Treatment Plant which serves the Green Meadows Subdivision of Ohio County, Kentucky.

Having considered the application and being otherwise sufficiently advised, the Commission finds that:

1. Green Meadows owns the Green Meadows Subdivision Sewage Treatment Plant which previously provided sewage treatment service to approximately 17 customers in the Green Meadows Subdivision of Ohio County, Kentucky.

2. The Green Meadows Subdivision Sewage Treatment Plant has a maximum capacity of 16,000 gallons per day.

3. Green Meadows placed the Green Meadows Subdivision Sewage Treatment Plant in operation in 1978.

4. On January 1, 1994, the City of Beaver Dam, Kentucky annexed the Green Meadows Subdivision.

5. Beginning February 1, 1994, the City of Beaver Dam, Kentucky began providing sewer treatment service directly to the residents of Green Meadows Subdivision.

6. The City of Beaver Dam has connected the sewer collection lines serving the Green Meadows Subdivision to its sewer mains.

Sewage from the Green Meadows Subdivision no longer flows into the Green Meadows Subdivision Sewage Treatment Plant.

7. Since the connection of the Green Meadows Subdivision sewer collection lines to the City of Beaver Dam's sewer main, the Green Meadows Subdivision Sewage Treatment Plant has not treated any sewage and has not been operated.

8. The proposed abandonment of the Green Meadows Subdivision Sewage Treatment Plant will not affect the sewage treatment service currently provided to the public.

IT IS THEREFORE ORDERED that:

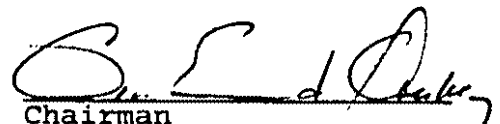

1. Green Meadows' application is approved.
2. Green Meadows is authorized to abandon the Green Meadows Subdivision Sewage Treatment Plant.

3. The Commission Staff Utility Inspection Report of July 25, 1994 on the Green Meadows Subdivision Sewage Treatment Plant is made a part of the record of this proceeding.

4. Green Meadows' Annual Report for the calendar year ending December 31, 1993 is incorporated by reference into the record of this proceeding.

Done at Frankfort, Kentucky, this 22nd day of June, 1995.

UTILITY INSPECTION REPORT

Green Meadows Subdivision Sewage Plant
Beaver Dam, Kentucky

On July 18, 1994, Wendell Spencer, superintendent of Water and Sewer Utilities for the City of Beaver Dam, Kentucky was contacted about the sewage system serving the Green Meadows Subdivision. During the conversation he stated that the use of the old existing 16,000 gpd plant that served the Green Meadows Subdivision had been discontinued and the plant abandoned. He also said the line to the old plant had been disconnected from the plant and connected to a new pump station constructed by the City of Beaver Dam to serve the Green Meadows Subdivision. The sewage is then pumped from the pump station to the sewage treatment plant of the City of Beaver Dam for treatment.

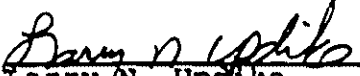

On July 20, 1994, the Public Service Commission received a letter from the City of Beaver Dam concerning the Green Meadows Subdivision sewage system (see attached letter). This letter stated in part the following, "The Beaver Dam Wastewater system started treating the Green Meadows subdivision wastewater in February 1994".

Report - Green Meadows Subdivision
Sewage Plant

SUBJECT: Green Meadows Subdivision
Wastewater Treatment

Dear Mr. Updike

The Beaver Dam Wastewater system started treating the Green Meadows subdivision wastewater in February 1994.

Should you have any questions, please contact me.

Sincerely,

Wendell Spencer
Supt. Water & Wastewater
