

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

REQUEST FOR CONFIDENTIAL TREATMENT OF)	
INFORMATION FILED WITH SOUTH CENTRAL)	CASE NO. 95-287
BELL TELEPHONE COMPANY'S PROPOSED)	
TARIFF MODIFICATION FOR ISDN SERVICES)	

O R D E R

This matter arising upon petition of BellSouth Telecommunications, Inc., d/b/a South Central Bell Telephone Company ("South Central Bell"), filed June 30, 1995, pursuant to 807 KAR 5:001, Section 7, for confidential protection of the cost data filed in support of its proposed tariff revisions for Integrated Services Digital Network - Individual Business Services ("ISDN-IBS") and Integrated Services Digital Network - Individual Residence Service ("ISDN-IRS") on the ground that disclosure of the information is likely to cause South Central Bell competitive injury, and it appearing to this Commission as follows:

In this proceeding, South Central Bell is proposing revisions to its General Subscriber Services Tariff which include proposed modifications to ISDN-IBS and ISDN-IRS. In support of its application, South Central Bell has filed cost information which it seeks to protect as confidential.

The information sought to be protected is not known outside South Central Bell and is not disseminated within South Central Bell except to those employees who have a legitimate business need to know and act upon the information. South Central Bell seeks to preserve and protect the confidentiality of the information through

all appropriate means, including the maintenance of appropriate security at its offices.

KRS 61.872(1) requires information filed with the Commission to be available for public inspection unless specifically exempted by statute. Exemptions from this requirement are provided in KRS 61.878(1). That subsection of the statute exempts several categories of information. One category exempted in paragraph (c)1 of that subsection is commercial information confidentially disclosed to the Commission which if made public would permit an unfair commercial advantage to competitors of the party from whom the information was obtained. To qualify for the exemption, the party claiming confidentiality must demonstrate actual competition and a likelihood of substantial competitive injury if the information is disclosed. Competitive injury occurs when disclosure of the information gives competitors an unfair business advantage.

ISDN-IBS and ISDN-IRS allow customers to transmit voice and data over ISDN channels through the exchange network. These services are alternatives to other local exchange service offerings, private line/data services, and dedicated private line networks. Competitors for local exchange service include cellular carriers which may also provide cellular data service, and may soon include providers of personal communications services, cable TV providers, and alternate access providers. Competitors for private line/data services and networks are interexchange carriers, resellers, and vendors of microwave, digital radio, fiber, VSAT,

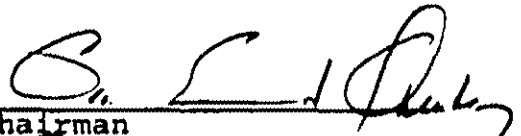

and other wireless equipment and services. Disclosure of the information would enable such competitors to determine South Central Bell's cost and contribution from the services which they could use in marketing their competing services to the detriment of South Central Bell. Therefore, disclosure of the information is likely to cause South Central Bell competitive injury, and the information should be protected as confidential.

This Commission being otherwise sufficiently advised,

IT IS ORDERED that the cost information filed in support of the proposed tariff revisions, which South Central Bell has petitioned to be withheld from public disclosure, shall be held and retained by this Commission as confidential and shall not be open for public inspection.

Done at Frankfort, Kentucky, this 9th day of August, 1995.
