

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

REQUEST FOR CONFIDENTIAL TREATMENT OF)	
INFORMATION FILED WITH BELL SOUTH)	
TELECOMMUNICATIONS, INC.'S PROPOSED)	CASE NO. 95-441
CONTRACT WITH AT&T FOR INTEGRATED)	
SERVICES DIGITAL NETWORK - RESIDENCE)	
SERVICE)	

O R D E R

This matter arising upon petition of BellSouth Telecommunications, Inc. ("BellSouth"), filed October 5, 1995, pursuant to 807 KAR 5:001, Section 7, for confidential protection of the cost support data developed in connection with a special service arrangement contract with AT&T for Integrated Services Digital Network - Residence Service ("IRS") on the grounds that disclosure of the information is likely to cause BellSouth competitive injury, and it appearing to this Commission as follows:

BellSouth has contracted with AT&T to provide an IRS circuit. This is a tariffed service only available on qualified facilities. Provision of the service will require deployment of a mid-span repeater in the outside plant facility. In support of the application, BellSouth has provided cost data which it seeks to protect as confidential.

The information sought to be protected is not known outside of BellSouth and is not disseminated within BellSouth except to those employees who have a legitimate business need to know and to act upon the information. BellSouth seeks to preserve and protect the confidentiality of the information through all appropriate means, including the maintenance of appropriate security at its offices.

KRS 61.872(1) requires information filed with the Commission to be available for public inspection unless specifically exempted by statute. Exemptions from this requirement are provided in KRS 61.878(1). That subsection of the statute exempts several categories of information. One category exempted in paragraph (c)1 of that subsection is commercial information confidentially disclosed to the Commission which if made public would permit an unfair commercial advantage to competitors of the party from whom the information was obtained. To qualify for the exemption, the party claiming confidentiality must demonstrate actual competition and a likelihood of substantial competitive injury if the information is disclosed. Competitive injury occurs when disclosure of the information gives competitors an unfair business advantage.

IRS allows residential customers to transmit voice and data over ISDN channels through the exchange network. This service is an alternative to other local exchange service offerings, private line/data services, and dedicated private line networks. BellSouth's competitors for local exchange service are cellular carriers who may also provide cellular data services and alternate

access providers. BellSouth's competitors for private line/data services and networks are interexchange carriers, resellers, and vendors of microwave, digital radio, fiber, VSAT, and other wireless equipment and services. Disclosure of the information sought to be protected would enable competitors to determine BellSouth's cost and contribution from the service, which they could use in marketing their competing services to the detriment of BellSouth. Therefore, disclosure of the information is likely to cause BellSouth competitive injury, and the information should be protected as confidential.

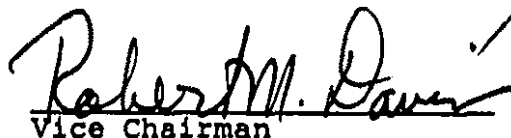

This Commission being otherwise sufficiently advised,

IT IS ORDERED that the cost support data filed in support of the proposed contract with AT&T, which BellSouth has petitioned to be withheld from public disclosure, shall be held and retained by this Commission as confidential and shall not be open for public inspection.

Done at Frankfort, Kentucky, this 7th day of November, 1995.
