PARTNERSHIP FOR ISSUANCE OF A)
CERTIFICATE OF PUBLIC CONVENIENCE AND)
NECESSITY TO CONSTRUCT AN ADDITIONAL) CASE NO. 96-129
CELL SITE IN LEXINGTON, KENTUCKY FOR THE)
PROVISION OF DOMESTIC PUBLIC CELLULAR)
RADIO TELECOMMUNICATIONS SERVICE TO THE)
PUBLIC IN THE LEXINGTON MSA)

O R D E R

On April 3, 1996, Lexington MSA Limited Partnership d/b/a BellSouth Mobility, Inc. ("Lexington MSA Partnership") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a cellular radio telecommunications antenna tower in the Lexington Metropolitan Statistical Area ("Lexington MSA"). The proposed cell site consists of a monopole antenna tower not to exceed 190 feet in height, with attached antennas, to be located at 763 New Circle Road, N.E., Lexington, Fayette County, Kentucky. The coordinates for the proposed cell site are North Latitude 38° 2' 49.28" by West Longitude 84° 27' 10.77".

Lexington MSA Partnership has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed cell site. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and the plans have been certified by a Registered Professional Engineer.

Pursuant to KRS 100.324(1), the proposed cell site's construction is exempt from local zoning ordinances. However, Lexington MSA Partnership has notified the Lexington-Fayette Urban County Planning Commission of the proposed construction. Lexington MSA Partnership has filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the proposed cell site. The FAA application has been approved and the KAZC decision is pending.

Lexington MSA Partnership has filed notices verifying that each person who owns property or resides within 500 feet of the proposed cell site has been notified of the pending construction. The notice solicited any comments and informed the property owners and residents of their right to intervene. In addition, Lexington MSA Partnership has posted notice of the proposed construction in a visible location for at least two weeks after filing its application. To date, no comments have been filed with the Commission.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, Lexington MSA Partnership should notify the Commission if it does not use this antenna tower to provide cellular radio telecommunications services in the manner set out in

its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by Lexington MSA Partnership.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Lexington MSA Partnership should be granted a Certificate of Public Convenience and Necessity to construct and operate the proposed cell site in Lexington MSA under its currently approved tariff.

IT IS THEREFORE ORDERED that:

1. Lexington MSA Partnership be and it hereby is granted a Certificate of Public Convenience and Necessity to construct and operate a monopole antenna tower not to exceed 190 feet in height, with attached antennas, to be located at 763 New Circle Road, N.E., Lexington, Fayette County, Kentucky. The coordinates for the proposed cell site are North Latitude 38° 2' 49.28" by West Longitude 84° 27' 10.77".

2. Lexington MSA Partnership shall file a copy of the final decision regarding its pending KAZC application for the proposed construction within 10 days of receiving the decision.

3. Lexington MSA Partnership shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 24th day of May, 1996.
