Kentucky RSA #3, Inc. has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the north Bowling Green cell site. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and the plans have been certified by a Registered Professional Engineer.

Pursuant to KRS 100.324(1), the North Bowling Green cell site's construction is exempt from local zoning ordinances; however, Kentucky RSA #3, Inc. notified the Bowling Green Planning & Zoning Commission of the pending construction. Kentucky RSA #3, Inc. has filed applications with and received approvals from the Federal Aviation Administration and the Kentucky Airport Zoning Commission for the construction and operation of the North Bowling Green cell site.

Kentucky RSA #3, Inc. has filed notices verifying that each person who owns property or who resides within 500 feet of the North Bowling Green cell site has been notified of the pending construction. The notice solicited any comments and informed the property owners or residents of their right to intervene. To date, no intervention requests have been received.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, Kentucky RSA #3, Inc.

should notify the Commission if it does not use this antenna tower to provide cellular radio telecommunications services in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by Kentucky RSA #3, Inc.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Kentucky RSA #3, Inc. should be granted a Certificate of Public Convenience and Necessity to construct and operate the North Bowling Green cell site in RSA No. 3 under its previously approved tariff.
