This matter arising upon the motion of The Union Light, Heat and Power Company ("ULH&P") for full intervention, and it appearing to the Commission that ULH&P has a special interest which is not otherwise adequately represented, and that such intervention is likely to present issues and develop facts that will assist the Commission in fully considering the matter without unduly complicating or disrupting the proceedings, and this Commission being otherwise sufficiently advised,

IT IS HEREBY ORDERED that:

1. The motion of ULH&P to intervene is granted.
2. ULH&P shall be entitled to the full rights of a party and shall be served with the Commission's Orders and with filed testimony, exhibits, pleadings, correspondence, and all other documents submitted by parties after the date of this Order.

3. Should ULH&P file documents of any kind with the Commission in the course of these proceedings, it shall also serve a copy of said documents on all other parties of record.

Re: Case No. 96-377

Please be advised that, until The Union Light Heat and Power Company has had an opportunity to determine the impact of the proposed telecommunications monopole structure involved in the above case, ULH&P should be considered an intervenor in the approval process. The pole structure may adversely impact our adjacent electric substation facility.

Please call with any comments or questions at (513) 287-2584. Again, this request for intervention is merely to provide time for ULH&P to determine the impact of said proposed structure. Upon said determination, further notification will be made.

Sincerely,

THE UNION LIGHT, HEAT AND POWER COMPANY

Re: Public Notice Case No. 96-377

Dear Sir:

I'm writing to you on behalf of B & K Group which owns property within the 500' radius of monopole being constructed at 1261 Mincola Pike, Erlanger, Kentucky. The drawing supplied does not adequately identify the location of the proposed project. We are requesting additional detail as to where in relationship to our facility that the monopole is being constructed. I have included a picture of the facility, as well as a site map, so that you may indicate approximately where the pole will be constructed.

We would also like to request a picture of what the pole will look like in similar applications. If you have any questions regarding our request please give me call at (513) 531-0077 extension 12.

Sincerely,
