### COMMONWEALTH OF KENTUCKY

### BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

AN EXAMINATION BY THE PUBLIC SERVICE	)	
COMMISSION OF THE ENVIRONMENTAL	)	
SURCHARGE MECHANISM OF KENTUCKY	) CASE NO. 96-	605
UTILITIES COMPANY AS BILLED FROM	)	
AUGUST 1, 1994 TO JULY 31, 1996	) .	

### ORDER

On December 18, 1996, the Commission initiated its first two-year review of Kentucky Utilities Company's ("KU") environmental surcharge as billed to customers from August 1, 1994 to July 31, 1996. Pursuant to KRS 278.183(3), at two-year intervals, the Commission must review and evaluate the past operations of the environmental surcharge. After hearing, the Commission must disallow improper expenses and to the extent appropriate incorporate surcharge amounts found just and reasonable into the existing base rates of the utility.

In anticipation that those parties to KU's last six-month review would desire to participate in this proceeding, the Attorney General's Office, Lexington-Fayette Urban County Government, and the Kentucky Industrial Utility Customers were deemed parties to this proceeding. A public hearing was held on April 8, 1997. All information requested at the public hearing has been filed.

As KU's surcharge is billed on a two-month lag, the amounts billed from August 1994 through July 1996 are based on costs incurred from June 1994 through May 1996.

### RECONCILIATION OF OVER- AND UNDER-RECOVERIES

The surcharge factor currently used is the result of dividing the monthly Kentucky jurisdictional surcharge revenue requirement by the average monthly Kentucky jurisdictional revenue. During the second and third six-month review cases, over-recoveries had been reflected as billing correction factors, which were combined with the surcharge factor for a given month. The net factor was then applied to customer billings. The application of the net surcharge factor during any six month period can cause an over- or under-recovery depending upon the difference between the level of revenues in the expense months and the billing months used to assess the surcharge. Because of this fact, the over-recovery the Commission ordered to be refunded to ratepayers in Case No. 95-445² has not been completed.

In order to properly compare the revenues actually collected with the revenue requirement allowed, KU proposed to modify the over- or under-recovery mechanism. KU suggested that an additional line item be included on ES Form 4.0 to reflect the over-recovery refund or under-recovery charge authorized by the Commission during a six-month review. KU believed that this change would allow the amount actually refunded or charged to be reconciled with the authorized jurisdictional revenue requirement. KU also proposed to continue the process of expressing over- and under-recoveries as billing correction factors.<sup>3</sup>

Case No. 95-445, An Examination by the Public Service Commission of the Environmental Surcharge Mechanism of Kentucky Utilities Company as Billed from February 1, 1995 to July 31, 1995. This was KU's second six-month review.

Willhite Revised and Supplemental Testimony, at 4, 7, and 8.

The Commission has examined this issue and agrees that a modification to the current mechanism is needed. The need for this "true-up" adjustment is based on the fact that the billing correction factor is a result of dividing the review period's over- or under-recovery by Kentucky jurisdictional revenues for the review period. With the billing correction factor included in the monthly surcharge factor, the effect of differences between the expense and billing months' revenue levels impacts the amounts refunded to or collected from ratepayers. The continued use of the billing correction factor approach would require a true-up adjustment. However, because of the timing of the sixmonth surcharge reviews, this true-up adjustment would not occur until a year after the original over- or under-recovery was determined. The Commission finds that this delay for a true-up adjustment is unreasonable.

During the hearing, an alternative method was examined. Under this alternative, the over- or under-recovery adjustment determined during a six-month review would not be expressed as a billing correction factor, but in dollars. When the monthly surcharge factor is calculated, subsequent to the determination of an over- or under-recovery, the dollar adjustment would be added to or subtracted from the monthly Kentucky jurisdictional revenue requirement. This "direct" methodology would eliminate the need for KU's proposed "true-up" adjustment, since the over- or under-recovery is reflected directly in the calculation of the monthly surcharge factor. It would not be impacted by the differences in revenue levels as is the current methodology. The "direct"

The over- or under-recovery dollar amount could be returned in one monthly surcharge billing or spread over a series of months if its impact is significant.

methodology would also result in a more timely reconciliation of refunds or charges with authorized Kentucky jurisdictional revenue requirements. Modifying the surcharge mechanism to recognize over- and under-recoveries as dollar adjustments to the monthly Kentucky jurisdictional revenue requirements is the most reasonable option.

The adoption of this modification will require minor adjustments to reporting formats ES Forms 1.0 and 4.0. The modified formats are attached to this Order in Appendix B, and should be used in the monthly surcharge reports filed subsequent to this Order, with one exception. As noted previously, the third six-month review<sup>5</sup> reflected the determined over-recovery as a billing correction factor. The reconciliation of this over-recovery refund will take place in the next six-month review. To accomplish the reconciliation of the over-recovery refund ordered in Case No. 95-445, KU had submitted a modified version of ES Form 4.0.<sup>6</sup> The Commission believes this modified format is a reasonable means of accomplishing the reconciliation required for the over-recovery refund ordered in Case No. 96-196. KU will be permitted to submit this modified version of ES Form 4.0 when it provides its calculation of the over- or under-recovery during the next six-month review.<sup>7</sup>

Case No. 96-196, An Examination by the Public Service Commission of the Environmental Surcharge Mechanism of Kentucky Utilities Company as Billed from August 1, 1995 to January 31, 1996.

Willhite Revised and Supplemental Testimony, Exhibit RLW-S1.

However, because the Commission is adopting a "direct" adjustment methodology, the modified version of ES Form 4.0 will not need to show the last two lines, titled "Total Review Period Revenue (Column 5)" and "Correction Factor - Reduction/(Increase)."

### SURCHARGE ROLL-IN

On July 28, 1995, the Franklin Circuit Court entered a judgment on the appeal of the Commission's Order in Case No. 93-465<sup>8</sup> establishing an environmental surcharge for KU. The Court vacated that portion of the Order allowing KU to recover the current cost of environmental expenditures incurred before January 1, 1993, and remanded the case to the Commission. That judgment has been appealed to the Kentucky Court of Appeals by KU, the Commission, and others.

KU recommended that the Commission not incorporate the environmental surcharge into base rates at this time because of the ongoing judicial review. KU suggested that this case be held open until the conclusion of all appeals and the determination of refunds, if any. The Commission could then incorporate the environmental surcharge costs into base rates. KU indicated that this procedure would not affect its ability to make refunds if required at the conclusion of the appeals since it is maintaining the necessary records to identify the amounts paid by each customer. 9

The Commission finds that the surcharge should not be incorporated into base rates until the appeals are concluded. Further, it is not necessary to leave this case open for what may be an indefinite period of time. This Order, like the prior KU surcharge review Orders, will be made subject to refund. Upon termination of the

<sup>&</sup>lt;sup>8</sup> Case No. 93-465, The Application of of Kentucky Utilities Company to Assess a Surcharge Under KRS 278.183 to Recover Costs of Compliance with Environmental Requirements for Coal Combustion Wastes and By-Products, Order dated July 19, 1994.

<sup>&</sup>lt;sup>9</sup> Willhite Direct Testimony, at 7-8.

appeals, the issues of refunds and incorporating the surcharge into base rates will be addressed.

### SURCHARGE ADJUSTMENT

KU determined that for the six-month billing period of February 1, 1996 through July 31, 1996, it over-recovered its environmental costs by \$280,662.<sup>10</sup> KU calculated a negative monthly correction factor of .606 percent<sup>11</sup> to be applied to the first billing month following the Commission's decision in this proceeding.

Based on a review of the evidence, the Commission finds KU's calculations to be reasonable except that one additional adjustment is required. In Case No. 96-196, the Commission removed certain ineligible operation and maintenance ("O&M") expenses from the surcharge calculations because they were not related to projects contained in KU's approved compliance plan. KU's calculations for the billing months of February 1996 through July 1996 properly reflected this exclusion, but the first two six-month reviews did not. The ineligible expenses were reflected in the O&M expense baseline as well as every monthly filing during the first year of the surcharge.

Response to the Commission's Order dated December 18, 1996, Item 1, and Willhite Revised and Supplemental Testimony, Exhibit RLW-S1. KU originally determined a \$236,008 under-recovery of environmental costs but later determined a \$280,662 over-recovery after correcting the working capital portion of rate base and incorporating a "true-up" adjustment to reconcile the over-recovery refund ordered in Case No. 95-445.

Willhite Revised and Supplement Testimony, Exhibit RLW-S1 and Transcript of Evidence, April 8, 1997, at 10. Since KU proposed to return the entire over-recovery in one month, the correction factor shown on Exhibit RLW-S1 must be multiplied by 6.

<sup>&</sup>lt;sup>12</sup> Case No. 96-196, final Order dated October 17, 1996, at 6-8.

KRS 278.183(3) requires that, among other actions, the Commission disallow improper expenses during the two-year review period. O&M expenses not related to projects in KU's approved compliance plan are ineligible for inclusion in the surcharge calculations and must be excluded during this review. Therefore, the Commission has adjusted KU's over-recovery calculations to reflect the exclusion of ineligible O&M expenses recovered in the first and second six-month surcharge periods. The Commission has determined that KU over-recovered \$277,217, as shown in Appendix A.<sup>13</sup>

### IT IS THEREFORE ORDERED that:

- 1. KU shall deduct \$277,217 from the jurisdictional revenue requirement determined in its next monthly surcharge report.
  - 2. KU's proposed correction factor and true-up mechanism are denied.
- 3. All surcharge revenues collected during the six-month period under review shall be subject to refund pending the final resolution of Case No. 93-465. KU shall maintain its records in a manner that will enable it, the Commission, or any of its customers to determine the amounts to be refunded and to whom due in the event a refund is ordered.
- 4. The modified reporting formats shown in Appendix B shall replace the corresponding formats authorized in Case No. 96-196. The modified formats shall be

Pages 2 through 6 of 6 in Appendix A contain the Commission's calculations reflecting the exclusion of ineligible O&M expenses. As the determination of KU's over-recovery is on a Kentucky jurisdictional basis only, the adjustment amounts shown are also Kentucky jurisdictional.

used in the monthly surcharge reports filed subsequent to this Order, except for the ES Form 4.0 which is to be filed in the next six-month review, as described in detail in this Order.

Done at Frankfort, Kentucky, this 16th day of May, 1997.
