(c) That: (Describe here, attaching additional sheets if necessary, the specific act, fully and clearly, or facts that are the reason and basis for the complaint.)

This complaint is pursuant to the outrageous cost being assessed to the Small Property Owners involved in the US 42 & RT. 338 Richwood Road area water project. We feel that the Judge Executive and the Boone County Water Commission have only the interest of the Developers in mind and no concern for the Small Property Owners.

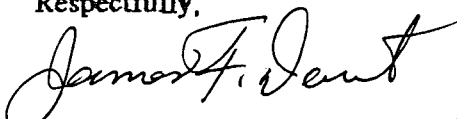

Due to the fact that the Unit Weights that were made available to be used as Votes for the project allowed 31 of the 104 property Owners to control 66% of the Votes cast. This is not, by any means, a Majority or a Democracy. However, it does set a precedent allowing Developers to use local Government to force small groups of private Property Owners to bear the cost of Public Utilities that will benefit the Developer.

We feel the County should float Bonds for this project and charge only Tap-In fees for those who wish to have water.

Furthermore, if the Judge Executive insists on forcing this project on those who do not wish it, we suggest he find other viable means of funding it. An additional fee on water bills of All County Residents until the project is paid for, and not a Lien bearing 6% interest on a few Small Property Owners would be another avenue to pursue.

Thank You for assistance in helping us to resolve this matter.

Respectfully,

James F. Daut

Willetta Rusconi
