RE: 97-385

Dear Sir:

I have received the application for the above mentioned case number.

Again, the Commission realizes the importance of these towers and have always worked, in the past, to see that their locations were placed in areas that would not be a nuisance to property owners.

Now that local approvals are no longer required, Shelby County will be seeing more and more applications for these towers.

Historically we have preferred to see these towers located in the "Knobs" area, along the Interstate 64 corridor or utilize existing structures.

The proposed site, 41 Pearce Industrial Road, is a highly populated area of industry and commercial use.

There is an existing water tower on Pearce Industrial Road that may be able to be utilized.

Shelby County requests your continued consideration as to the location of these towers.

Thank you for your consideration in the past.

Sincerely,

*Joanne B. Bemiss*
