

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF SPRINTCOM, INC. FOR A CERTIFICATE)	
OF PUBLIC CONVENIENCE AND NECESSITY TO CONSTRUCT)	CASE NO.
A PERSONAL COMMUNICATIONS SERVICE FACILITY IN THE)	97-491
CINCINNATI MAJOR TRADING AREA)	
[AIRPORT EXCHANGE FACILITY])	

O R D E R

On December 22, 1997, SprintCom, Inc. ("SprintCom") filed an application seeking a Certificate of Public Convenience and Necessity to build and operate a personal communications system ("PCS") for the Cincinnati Major Trading Area. SprintCom has requested authorization to construct a PCS site in Boone County. SprintCom was previously granted the authority to operate in Case No. 97-294.¹

The proposed PCS site consists of a 140-foot or less monopole antenna tower to be located at 3261 Mineola Pike, Erlanger, Boone County, Kentucky ("the Airport Exchange PCS site"). The coordinates for the Airport Exchange PCS site are North Latitude 39° 03' 31" by West Longitude 84° 37' 29".

SprintCom has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the Airport Exchange PCS site. Based upon the

¹ Case No. 97-294, The Application of SprintCom, Inc. for Operating Authority and Issuance of Certificate of Public Convenience and Necessity to Construct Personal Communications Services Facilities in Kentucky.

application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Registered Professional Engineer has certified the plans.

Pursuant to KRS 100.324(1), the Airport Exchange PCS site's construction is exempt from local zoning ordinances; however, SprintCom notified the Boone County Planning and Zoning Commission of the pending construction. SprintCom has filed applications with and received approvals from the Federal Aviation Administration and the Kentucky Airport Zoning Commission for the construction and operation of the Airport Exchange PCS site.

SprintCom has filed notices verifying that each person who owns property within 500 feet of the Airport Exchange PCS site has been notified of the pending construction. The notice solicited any comments and informed the property owners of their right to intervene. In addition, notice was posted in a visible location on the proposed site for at least two weeks after SprintCom's application was filed. On April 10, 1998, Richard B. Tranter filed an intervention request. On April 16, 1998, the Commission granted Mr. Tranter intervenor status and ordered SprintCom to respond to his concerns. On April 28, 1998, SprintCom requested a hearing. On June 2, 1998, the Commission issued an order giving intervenors 10 days to request a hearing. On June 12, 1998, Mr. Tranter informed the Commission that he had no objection to the proposed tower.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or

insufficient. To assist the Commission in its efforts to comply with this mandate, SprintCom should notify the Commission if it does not use this antenna tower to provide PCS radio telecommunications services in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by SprintCom.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that SprintCom should be granted a Certificate of Public Convenience and Necessity to construct and operate the Airport Exchange PCS site under its previously approved tariff.

IT IS THEREFORE ORDERED that:

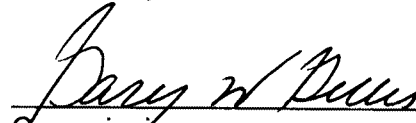

1. SprintCom is granted a Certificate of Public Convenience and Necessity to construct and operate the Airport Exchange PCS site.
2. SprintCom shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 8th day of July, 1998.
