In the Matter of:

APPLICATION OF POWERTEL/KENTUCKY, INC., A)	
DELAWARE CORPORATION, FOR ISSUANCE OF)	
A CERTIFICATE OF PUBLIC CONVENIENCE AND)	
NECESSITY TO CONSTRUCT A PERSONAL)	CASE NO. 98-419
COMMUNICATIONS SERVICES FACILITY IN B-263)	
BASIC TRADING AREA (THE L-KY-056-042)	
FACILITY))	

O R D E R

On August 20, 1998, Powertel/Kentucky, Inc. ("Powertel/Kentucky") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 192 feet in height, with attached antennas, to be located at 11506 Park Road, Louisville, Jefferson County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 15' 54" by West Longitude 85° 32' 24".

Powertel/Kentucky has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and the plans have been certified by a Registered Professional Engineer.

Pursuant to KRS 278.650(1), Powertel/Kentucky has submitted a proposal to construct a communications facility to the Louisville and Jefferson County Planning and

Zoning Commission ("Planning Commission"). The Planning Commission approved the proposal on July 23, 1998. Powertel/Kentucky has filed applications with the Federal Aviation Administration and the Kentucky Airport Zoning Commission seeking approval for the construction and operation of the proposed facility. Both applications have been approved.

Powertel/Kentucky has filed notices verifying that each person who owns property within 500 feet of the proposed facility has been notified of the pending construction. The notice solicited any comments and informed the property owners of their right to request intervention. In addition, notice of the proposed construction has been posted in a visible location for at least two weeks after filing the application. To date, no comments have been filed with the Commission.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, Powertel/Kentucky should notify the Commission if it does not use this antenna tower to provide service in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by Powertel/Kentucky.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Powertel/Kentucky should be granted a Certificate of Public Convenience and Necessity to construct the proposed facility.

IT IS THEREFORE ORDERED that:

1. Powertel/Kentucky is granted a Certificate of Public Convenience and Necessity to construct a self-supporting antenna tower not to exceed 192 feet in height, with attached antennas, to be located at 11506 Park Road, Louisville, Jefferson County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 15' 54" by West Longitude 85° 32' 24".

2. Powertel/Kentucky shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 2nd day of October, 1998.
