BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF CROWN COMMUNICATION)
INC. AND NEXTEL WEST CORP. FOR ISSUANCE)
OF A CERTIFICATE OF PUBLIC CONVENIENCE)
AND NECESSITY TO CONSTRUCT A WIRELESS)
COMMUNICATIONS FACILITY AT LEBANON)
JUNCTION IN THE TRUNKED SMR LICENSE AREA) CASE NO. 98-068
IN THE COMMONWEALTH OF KENTUCKY IN THE)
COUNTY OF BULLITT)
SITE NAME: CLARK (DOUGLAS & RUTH CLARK))
SITE NUMBER: K-5017-A)

O R D E R

On February 20, 1998, Crown Communication Inc. (Crown) and Nextel West Corporation (Nextel) (collectively, the Applicants) filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 350 feet in height, with attached antennas, to be located at 231 Old Boston Road, Lebanon Junction, Bullitt County, Kentucky. The coordinates for the proposed facility are North Latitude 37° 50' 19.02" by West Longitude 85° 42' 46.32". According to the application, Nextel intends to collocate its wireless facilities on the proposed structure and has demonstrated the need for a communications facility at the proposed site.

Crown has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the

application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and the plans have been certified by a Registered Professional Engineer.

Pursuant to KRS 100.324(1), the proposed facility's construction is exempt from local zoning ordinances. However, the Applicants have notified the Bullitt County Joint Planning Commission (Planning Commission) of the proposed construction. The Planning Commission filed comments and intervened in this proceeding, but later withdrew its objections. The Applicants have filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the proposed facility. Both decisions are pending.

The Applicants have filed notices verifying that each person who owns property within 500 feet of the proposed facility has been notified of the pending construction. The notice solicited any comments and informed the property owners of their right to request intervention. In addition, notice of the proposed construction has been posted in a visible location for at least two weeks after filing the application. The Commission received comments from one area property owner but no request to intervene has been filed. Pursuant to Commission Order, Nextel investigated collocating on a nearby telecommunications tower but determined that collocation on the existing structure would not be feasible.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To

assist the Commission in its efforts to comply with this mandate, Crown should notify the Commission if it does not use this antenna tower to provide service in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by Crown.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Crown should be granted a Certificate of Public Convenience and Necessity to construct the proposed facility.

IT IS THEREFORE ORDERED that:

1. Crown is granted a Certificate of Public Convenience and Necessity to construct a self-supporting antenna tower not to exceed 350 feet in height, with attached antennas, to be located at 231 Old Boston Road, Lebanon Junction, Bullitt County, Kentucky. The coordinates for the proposed facility are North Latitude 37° 50' 19.02" by West Longitude 85° 42' 46.32".

2. The Applicants shall file a copy of the final decisions regarding their pending FAA and KAZC applications for the proposed construction within 10 days of receiving these decisions.

3. Crown shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 5th day of January, 1999.

By the Commission
