IN THE COUNTY OF CAMPBELL)	
SITE NAME: DAYTON)	
SITE NUMBER: KY-0618)	

O R D E R

On July 2, 1998, Nextel West Corp. ("Nextel") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 196 feet in height, with attached antennas, to be located at 931 Alexandria Pike, Southgate, Campbell County, Kentucky. The coordinates for the proposed facility are North Latitude 39° 3' 19.5" by West Longitude 84° 28' 4.3".

Nextel has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and the plans have been certified by a Registered Professional Engineer.

Pursuant to KRS 100.324(1), the proposed facility's construction is exempt from local zoning ordinances. However, Nextel has notified the Campbell County Planning and

Zoning Commission (Planning Commission) of the proposed construction. The Planning Commission intervened in this matter but later withdrew its objection. Nextel has filed applications with the Federal Aviation Administration and the Kentucky Airport Zoning Commission seeking approval for the construction and operation of the proposed facility. Both applications have been approved.

Nextel has filed notices verifying that each person who owns property within 500 feet of the proposed facility has been notified of the pending construction. The notice solicited any comments and informed the property owners of their right to request intervention. In addition, notice of the proposed construction has been posted in a visible location for at least two weeks after filing the application. To date, no public comments have been filed.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, Nextel should notify the Commission if it does not use this antenna tower to provide service in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by Nextel.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Nextel should be granted a Certificate of Public Convenience and Necessity to construct the proposed facility.

IT IS THEREFORE ORDERED that:

1. Nextel is granted a Certificate of Public Convenience and Necessity to construct a self-supporting antenna tower not to exceed 196 feet in height, with attached antennas, to be located at 931 Alexandria Pike, Southgate, Campbell County, Kentucky. The coordinates for the proposed facility are North Latitude 39° 3' 19.5" by West Longitude 84° 28' 4.3".

2. Nextel shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 16th day of February, 1999.

By the Commission

ATTEST:

Executive Director
