O R D E R

Pursuant to Commission Regulation 807 KAR 5:056, the Commission on June 23, 1999 established this case to review and evaluate the operation of the fuel adjustment clause (FAC) of American Electric Power Company (AEP) for the 6 months ended April 30, 1999.

As part of this review, AEP, pursuant to Commission Order, submitted certain information concerning its compliance with Commission Regulation 807 KAR 5:056. A public hearing was held on August 19, 1999.

The Commission has previously established AEP s base fuel cost of 11.45 mills per Kwh.¹ A review of AEP s monthly fuel clause filings shows that the actual fuel cost incurred for the 6-month period under review ranged from a low of 11.22 mills in March 1999 to a high of 11.57 mills in April 1999, with a 6-month average of 11.35 mills.

¹ Case No. 94-460, An Examination by the Public Service Commission of the Application of the Fuel Adjustment Clause of Kentucky Power Company from November 1, 1992 to October 31, 1994, Order dated April 5, 1995.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds no evidence of improper calculation or application of AEP's FAC charge or improper fuel procurement practices.

IT IS THEREFORE ORDERED that the charges and credits billed by AEP through its FAC for the period November 1, 1998 to April 30, 1999 are approved.

Done at Frankfort, Kentucky, this 3rd day of November, 1999.
