O R D E R

On September 1, 1999, the Commission entered an Order that directed SprintCom to produce certain documents and evidence concerning its application for the issuance of a certificate to construct a facility at its Loder Creek Site. Pursuant to that Order a hearing was held on November 19, 1999 at which SprintCom did not present or pre-file testimony as to its attempts to co-locate the facility. SprintCom admitted it was having difficulty obtaining witnesses and was unable to pre-file its testimony.

On March 17, 2000, SprintCom filed testimony and requested that a hearing date be scheduled. On March 27, 2000, the Intervenor filed a motion requesting that SprintCom identify the specific location of tower #237 and the Intervenor be given 60 days to conduct its own analysis in preparation for any hearing.

The Commission, having considered the record herein and being sufficiently advised, HEREBY ORDERS that:

1. SprintCom shall specifically identify the location of tower #237, as referenced in the prefiled testimony of Ryan Villancourt, by reference to exhibits previously filed in the record.

2. Intervenors are granted a period of 60 days from the date SprintCom shall file its response to this Order in which to conduct an examination of tower #237.

Done at Frankfort, Kentucky, this 13th day of April, 2000.

By the Commission

ATTEST:

Executive Director
