SERVICES WITH PRIVATE FIRE PROTECTION )  
FACILITIES )

ORDER

On December 7, 2001, the Commission in Administrative Case No. 385<sup>1</sup> directed, *inter alia*, that all water utilities who assess a minimum monthly rate for fire protection services that includes a commodity component revise their rate schedules to eliminate that commodity component. In response to this directive, Butler County Water System, Inc. ( Butler County ) has submitted a rate schedule for services with fire protection facilities.

Having reviewed the proposed rate schedule, the Commission finds that, pursuant to KRS 278.260(1), an investigation should be initiated to determine whether the revised fire protection services rate schedule excludes all commodity component costs. During the pendency of this investigation, Butler County s revised fire protection services rate will remain in effect. Should the Commission determine that revisions to this rate are required, such revisions will be prospective.
