O R D E R

On April 15, 2002, Crown Communication Inc. and Kentucky CGSA, LLC d/b/a Cingular Wireless - Lexington/Louisville (Applicants) filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility is to be located at Cooper Road, Simpsonville, Shelby County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 18 8.56 by West Longitude 85° 20 12.78 .

The Applicants have provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Licensed Professional Engineer has certified the plans.

Pursuant to KRS 100.987, the Applicants have submitted the uniform application to the local planning unit. The planning unit with jurisdiction has not registered with the Commission for the right to regulate cell sites and, to date, the planning unit has filed no comments regarding the proposed construction. The Applicants have filed applications with the Federal Aviation Administration (FAA) and the Kentucky Airport Zoning Commission (KAZC) seeking approval for the construction and operation of the proposed facility. Both decisions are pending.

The Applicants have filed evidence of the appropriate notices provided pursuant to 807 KAR 5:063. The notices solicited any comments and informed the recipients of their right to request intervention. On April 29, 2002, the Commission received a letter of concern to the placement of the tower from Nancy Clarke Crawford. However, Ms. Crawford failed to notify the Commission of any desire to pursue this matter further.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that the Applicants have demonstrated that a facility is necessary to provide adequate utility service and therefore a Certificate of Public Convenience and Necessity to construct the proposed facility should be granted.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, the Applicants should notify the Commission if they do not use this antenna tower to provide service in the manner set out in their application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the

proper practices, including removal of the unused antenna tower, which should be observed by the Applicants.

IT IS THEREFORE ORDERED that:

1. The Applicants are granted a Certificate of Public Convenience and Necessity to construct a wireless telecommunications facility. The proposed facility is to be located at Cooper Road, Simpsonville, Shelby County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 18 8.56 by West Longitude 85° 20 12.78 .

2. The Applicants shall file a copy of the final decisions regarding the pending FAA and KAZC applications for the proposed construction within 10 days of receiving the decisions.

3. The Applicants shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 24th day of May, 2002.

By the Commission
