O R D E R

Pursuant to Administrative Regulation 807 KAR 5:056, the Commission, on December 19, 2003, established this case to review and evaluate the operation of the fuel adjustment clause ("FAC") of East Kentucky Power Cooperative, Inc. ("East Kentucky") for the six months ended October 31, 2003.

As part of this review, East Kentucky, pursuant to Commission Order, submitted certain information concerning its compliance with Administrative Regulation 807 KAR 5:056. A public hearing was held on March 17, 2004.

The Commission has previously established East Kentucky's base fuel cost at 15.60 mills per Kwh.<sup>1</sup> A review of East Kentucky's monthly fuel clause filings shows that the actual fuel cost incurred for the six-month period under review ranged from a low of 13.94 mills in June 2003 to a high of 18.90 mills in August 2003, with a six-month average of 16.58 mills.
