O R D E R

On December 17, 2004, Louisville Gas and Electric Company (“LG&E”) and Kentucky Utilities Company (“KU”) filed a joint application for approval to construct a 750 MW super-critical pulverized coal-fired generating unit at their Trimble County Generating Station. On January 27, 2005, the Commission issued a procedural schedule and subsequently employed the services of BBC Research and Consulting (“BBC”) to review the site assessment report filed as part of the application. The Commission now finds that the procedural schedule should be amended to accommodate BBC’s participation. The Commission, in issuing this revised schedule, also clarifies that anyone may issue data requests on May 6, 2005, not just LG&E and KU. This procedural schedule is subject to further modification or supplementation.

IT IS THEREFORE ORDERED that the amended procedural schedule in Appendix A to this Order shall be followed in this proceeding.

Done at Frankfort, Kentucky, this 28<sup>th</sup> day of February, 2005.
