

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF HARRISON COUNTY	)	
WATER ASSOCIATION, INC. TO REVISE	)	CASE NO. 2005-00024
CERTAIN NON-RECURRING CHARGES	)	

O R D E R

On January 11, 2005, Harrison County Water Association, Inc. ("Harrison Water") tendered its application to increase certain non-recurring charges. On January 14, 2005, the Executive Director of the Commission notified Harrison Water that its application was rejected for certain filing deficiencies as listed in the notification. Harrison Water was allowed 15 days to correct the deficiencies. By letter dated January 28, 2005, Harrison Water requested 30 days to correct the filing deficiencies, and the request was granted. On February 14, 2005, Harrison Water requested an extension to March 30, 2005 to correct the deficiencies. On March 31, 2005, Harrison Water requested yet another extension to gather the necessary information to correct the deficiencies.

On April 1, 2005, Harrison Water tendered its response to cure the deficiencies as noted in the Executive Director's January 14, 2005 letter. However, on April 20, 2005, Harrison Water was notified by letter that its application was still deficient, pursuant to 807 KAR 5:011, Section 10(2), for lack of "an absorption test." On June 13, 2005, Harrison Water tendered a document attempting to cure the deficiency. On June 14, 2005, Commission Staff informed Harrison Water by letter that the document

did not meet the requirements of “an absorption test” pursuant to the above regulation and that the application remained deficient. Harrison Water was informed that it could request, upon a showing of good cause, a deviation from the “absorption test” regulation or in the alternative withdraw the application. Harrison Water has not responded to the June 14, 2005 communication.

We find that Harrison Water’s application continues to be deficient and will be removed from the Commission’s docket 10 days from the date of this Order if the deficiency is not cured.

IT IS THEREFORE ORDERED that Harrison Water shall cure the deficiency within 10 days from the date of this Order or the application will be removed from the Commission’s docket.

Done at Frankfort, Kentucky, this 26<sup>th</sup> day of July, 2005.

By the Commission

ATTEST:

Executive Director
