BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF BLUEGRASS WIRELESS)	
LLC FOR ISSUANCE OF A CERTIFICATE OF)	
PUBLIC CONVENIENCE AND NECESSITY TO)	CASE NO.
CONSTRUCT A CELL SITE (PULASKI WEST) IN)	2005-00284
RURAL SERVICE AREA #6 (PULASKI) OF THE)	
COMMONWEALTH OF KENTUCKY)	

O R D E R

On September 12, 2005, Bluegrass Wireless LLC (“Applicant”) filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 255 feet in height, with attached antenna, to be located at 1715 North Minton Road, Nancy, Pulaski County, Kentucky. The coordinates for the proposed facility are North Latitude 37° 5’ 46.40” by West Longitude 84° 50’ 33.90”.

The Applicant has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Licensed Professional Engineer has certified the plans.

Pursuant to 807 KAR 5:063, the Applicant has notified the County Judge/Executive of the proposed construction. The Applicant has filed applications with the Federal Aviation Administration (“FAA”) and the Kentucky Airport Zoning

Commission (“KAZC”) seeking approval for the construction and operation of the proposed facility. Both decisions are pending.

The Applicant has filed evidence of the appropriate notices provided pursuant to 807 KAR 5:063. The notices solicited any comments and informed the recipients of their right to request intervention. The Commission received two letters regarding the placement of the proposed tower – one from Ertis Roy, and the other from Teresa Pyles. By letter dated September 16, 2005, the Commission responded to Mr. Roy and gave him 10 days to request intervention. Mr. Roy subsequently filed a letter in support of the proposed construction. In her letter, Ms. Pyles requested information regarding the proposed facilities, and the Applicant addressed her concerns on September 28, 2005. On October 13, 2005, the Commission gave Ms. Pyles 10 days to request further participation in this matter. The 10-day time frame for Ms. Pyles to file further response has passed, and the Commission has received no further correspondence from Ms. Pyles.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that the Applicant has demonstrated that a facility is necessary to provide adequate utility service and that, therefore, a Certificate of Public Convenience and Necessity to construct the proposed facility should be granted.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, the Applicant should notify the Commission if it does not use this antenna tower to provide

service in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by the Applicant.

IT IS THEREFORE ORDERED that:

1. The Applicant is granted a Certificate of Public Convenience and Necessity to construct a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 255 feet in height, with attached antenna, and is to be located at 1715 North Minton Road, Nancy, Pulaski County, Kentucky. The coordinates for the proposed facility are North Latitude 37° 5' 46.40" by West Longitude 84° 50' 33.90".

2. The Applicant shall file a copy of the final decisions regarding the pending FAA and KAZC applications for the proposed construction within 10 days of receiving the decisions.

3. The Applicant shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 3rd day of November, 2005.

By the Commission

ATTEST:

A handwritten signature in black ink, consisting of several overlapping loops and a long horizontal stroke at the end, positioned above a horizontal line.
