Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") have applied for approval to transfer functional control of their transmission facilities from the Midwest Independent System Operator ("MISO"), to LG&E and KU, for the purpose of affecting their withdrawal from MISO, and to the Tennessee Valley Authority ("TVA") to the extent necessary for TVA to act as their Reliability Coordinator and to the Southwest Power Pool ("SPP") to the extent necessary for SPP to act as their Independent Transmission Organization.

The relief that the Applicants seek in their current application is entirely dependent upon our final decision in Case No. 2003-00266.¹ Should we deny their application in that proceeding to exit MISO, their application in this proceeding will be rendered moot.
