O R D E R

Northeast Woodford County Water District ("Northeast Woodford") is hereby notified that it has been named as defendant in a formal complaint filed on December 10, 2008, a copy of which is attached hereto.

Pursuant to 807 KAR 5:001, Section 12, Northeast Woodford is HEREBY ORDERED to satisfy the matters complained of or file a written answer to the complaint within 10 days from the date of service of this Order.

Should documents of any kind be filed with the Commission in the course of this proceeding, the documents shall also be served on all parties of record.

Done at Frankfort, Kentucky, this 30th day of December, 2008.

By the Commission

807 KAR 5:001. Rules of procedure.

Section 12. Formal Complaints.

(1) **Contents of complaint.** Each complaint shall be headed "Before the Public Service Commission," shall set out the names of the complainant and the name of the defendant, and shall state:

(a) The full name and post office address of the complainant.

(b) The full name and post office address of the defendant.

(c) Fully, clearly, and with reasonable certainty, the act or thing done or omitted to be done, of which complaint is made, with a reference, where practicable, to the law, order, or section, and subsections, of which a violation is claimed, and such other matters, or facts, if any, as may be necessary to acquaint the commission fully with the details of the alleged violation. The complainant shall set forth definitely the exact relief which is desired (see Section 15(1) of this administrative regulation)

(2) **Signature.** The complaint shall be signed by the complainant or his attorney, if any, and if signed by such attorney, shall show his post office address. Complaints by corporations or associations, or any other organization having the right to file a complaint, must be signed by its attorney and show his post office address. No oral or unsigned complaints will be entertained or acted upon by the commission.

(3) **Number of copies required.** At the time the complainant files his original complaint, he must also file copies thereof equal in number to ten (10) more than the number of persons or corporations to be served.

(4) Procedure on filing of complaint.

(a) Upon the filing of such complaint, the commission will immediately examine the same to ascertain whether it establishes a prima facie case and conforms to this administrative regulation. If the commission is of the opinion that the complaint does not establish a prima facie case or does not conform to this administrative regulation, it will notify the complainant or his attorney to that effect, and opportunity may be given to amend the complaint within a specified time. If the complaint is not so amended within such time or such extension thereof as the commission, for good cause shown, may grant, it will be dismissed.

(b) If the commission is of the opinion that such complaint, either as originally filed or as amended, does establish a prima facie case and conforms to this administrative regulation, the commission will serve an order upon such corporations or persons complained of under the hand of its secretary and attested by its seal, accompanied by a copy of said complaint, directed to such corporation or person and requiring that the matter complained of be satisfied, or that the complaint be answered in writing within ten (10) days from the date of service of such order, provided that the commission may, in particular cases, require the answer to be filed within a shorter time.

(5) **Satisfaction of the complaint.** If the defendant desires to satisfy the complaint, he shall submit to the commission, within the time allowed for satisfaction or answer, a statement of the relief which he is willing to give. Upon the acceptance of this offer by the complainant and the approval of the commission, no further proceedings need be taken.

(6) **Answer to complaint.** If satisfaction be not made as aforesaid, the corporation or person complained of must file an answer to the complaint, with certificate of service on other parties endorsed thereon, within the time specified in the order or such extension thereof as the commission, for good cause shown, may grant. The answer must contain a specific denial of such material allegations of the

complaint as controverted by the defendant and also a statement of any new matter constituting a defense. If the answering party has no information or belief upon the subject sufficient to enable him to answer an allegation of the complaint, he may so state in his answer and place his denial upon that ground (see Section 15(2) of this administrative regulation).

807 KAR 5:001. Rules of procedure.

Section 15. Forms.

(1) In all practice before the commission the following forms shall be followed insofar as practicable:

- (a) Formal complaint.
- (b) Answer.
- (c) Application.
- (d) Notice of adjustment of rates.
- (2) Forms of formal complaint.
- (3) Form of answer to formal complaint.
- (4) Form of application.
- (5) Form of notice to the commission of adjustment of rates

Commonwealth of Kentucky
Public Service Commission
211 Sower Blvd.
PO Box 615
Frankfort, KY 40602-0615

Dear Public Service Commission:

Enclosed you will find a formal complaint against NorthEast Woodford Water District and the Chairman Commissioner, John Davis.

On or around Saturday, November 29, 2008 I received my water bill along with a letter from the District. I was very concerned about this bill, as it had increased double plus in one month, so I had my husband (Phillip Rogers Jr.) call Northeast Woodford Water District on Monday, December 1, 2008. He called for almost 45 minutes until he finally got through to someone. He talked to Mary who said they had been bombarded that morning with calls of complaints of customers that had either double or triple water bills for the month of November. Mary said that the commissioners were going to have someone go back out to all the customers who voiced a complaint over the phone and re-read their meters to see if they were all accurate. I talked to Mary later on Monday afternoon and was advised that the Commissioners (John Davis-Chairman, Larry Moore-Treasurer and Hubert Shipp-Secretary) were going to have a meeting on Tuesday around 10:00 am to discuss this complaint and once it was over that Mr. Davis would be making calls back to all customers who called with complaints. I talked with Mary again on Tuesday afternoon and she said that they have decided to re-read all meters again, and to my understanding that was done on Wednesday. I called back around 4:45pm on Wednesday as I had not heard back from Northeast Woodford Water District, and Mary advised that Mr. Davis was there and she took my number and said she would have him call me back. A few minutes later, he did call me back and I talked to him for 15 minutes. He advised that the meter was read and it was accurate but could not give me a reason why my bill was double this month. I also asked him how often we get actual readings of the meters because it don't say on my billing statement if it was a actual reading or a estimate reading like my other utilities do, and he said every month is a actual reading unless inclement weather and then it is estimated. He said that there was a actual reading on 11-13-08 and they actually came back out on Wednesday 12-03-08 when they got so many complaints and re-read them, so I then asked him if that is the case, my meter is in my front yard and the grass has been grown over the meter lid since early in the Spring of this year, and until they sent someone out on Monday to re-read the meter, that grass had never been disturbed on top of my meter, so I proceeded to ask him if he knew what his meter readers were doing on the job, and he said actually "NO I Don't", and if he is the Commissioner, he should actually know what his employees are doing on a daily basis, or at least know what the employees he hires to read the meters are doing on a daily basis, in case of a complaint of this magnitude so that he has all of his ducks in a row to respond. I was told by Northeast not once, but at least 3 times that I must have a leak some where from the meter to my home, and I told Mr. Davis that we are on a slab home, and if I had a leak in my home I would know it, and/or a leak around the foundation and I didn't, or as the plumber I talked with, I would have a big saturated spot in my yard which I didn't, to go from 5,000 gallons average per month for several months to 13,000 gallons in one month. Mr. Davis's response was, that some might be filling up swimming pools, watering lawns or washing vehicles, I neither own a pool nor have ever watered my lawn in 3 years I have been at this address, and my husband had not washed a car for about 3 months now, so that could not be my issue, nor could I have a leak. So, that night I started thinking about the issue, and I decided to go and talk to a couple of my neighbors to see if they had indeed received their water bills too, and indeed they had and they were upset as well that theirs either rased substancially or doubled as well. Therefore, I knew all of us that had higher bills could not all have a leak, so I wanted to talk to someone else about this issue.

Mr. John Smith Versailles, KY 40383
Mr. Ed Smith Versailles, KY 40383
Mr. James Knox Versailles, KY 40383

I also asked Mr. Davis about the letter received with our billing statement advising that we have had bacteria in our drinking water since August and we are just being notified almost at the beginning of December. Mr. Davis's response to that was, that Northeast Woodford Water buys their water from Versailles City Water and they notified it's customers as soon as they got notification from Versailles Public Works Dept. I inturn called Versailles Public Works and talked to Mr. Bruce Southworth (Director of Public Works for the City of Versailles), and he advised that he had never heard of the City having a problem with any type of bacteria in all of their testings, and just so happened that he had one of his employees that lived in my neighborhood (actually one of my other neighbors) and he obtained a copy of the letter that was sent to Northeast Woodford customers. He was not a a bit happy with that information being given out to all of the Northeast customers who had called with complaints that they got the contamination from the City of Versailles water. My question was why did they know this in August and we are just finding out about the contamination around the first of December. My whole family has been ill with stomach problems for a few months now, and thought we were just passing the stomach virus back and forth, since I do have a severly compromised immune system, I know believe it was the water we were all drinking at home that has been making us sick not the stomach virus.

I then contacted your office and talked with Mr. Matt Rhody who advised me that they did get a report from Northeast Woodford Water District and that they were advised that we as customers would have to pay a \$25 dollar fee to have each of our meters tested or file a informal complaint. I advised that I didn't believe at all that this was a meter issue, but rather a meter reader issue that had not been addressed, and he turned in the informal complaint. Mr. Rhody called me back on Friday, December 5 and said that Northeast stands behind their report and that he believed it was a meter reader issue as well, and my next step if I didn't want to pay the \$25 dollars to have the meter tested, then I would have to file a formal complaint. That is why I am sending this complaint. If this is the response that Mr. Davis and the Northeast Woodford Water District can give me, that the water went through my meter and I owe the bill and he can set me up on a payment plan, which he didn't even give my neighbor a option when he talked with him, then I feel it appropriate that the District adjust all of the bills for this month and send some type of apology letter to all of it's customers and let them know that they will have appropriate meter readings beginning next month to not be surprised if the bill is a little more from now on. I don't mind paying my bills, and I wouldn't have minded it at all if I was not talked down to, advised more than once that I must have a leak, or have filled up a swimming pool, washed cars or watered my lawn when I haven't, and was just told the truth in the first place that they had poor meter readers not doing their jobs and that it would be handled appropriately, but I wasn't.

Thank you for your time in this matter,

Tammy Rogers

Enclosed:

attachment #1 3 months of bills for myself, Mr. John Smith, Mr. Ed Smith and Mr. James Knox
attachment#2 Letter from Northeast Woodford Water District notifying customers of Bacteria

Also, I would like to know how these Northeast Woodford Water District commissioners are elected and what I can do to attend the next election.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Test Showed Coliform Bacteria in Northeast Woodford Water District

The Northeast Woodford Water District violated a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did to correct this situation

We are required to monitor your drinking water for specific contaminants on a regular basis. Standards require that no more than 5% of our samples may show the presence of coliform bacteria. During the month of August, 2008, nine Routine and Repeat samples for coliform bacteria were taken and two of those samples tested positive for coliform bacteria.

What should I do?

You do not need to boil your water or take other corrective actions. However, if you have specific health concerns, consult your doctor.

People with severely compromised immune systems, infants, and some elderly may be at increased risk. These people should seek advice about drinking water from their health care providers. General guidelines on ways to lessen the risk of infection by microbes are available for EPA's Safe Drinking Water Hotline at 1-800-426-4791.

What does this mean?

This is not an emergency. If it had been you would have been notified immediately. Total coliform bacteria are generally not harmful themselves. Coliforms are bacteria which are naturally present in the environment and are used as an indicator that other, potentially-harmful, bacteria may be present. Coliforms were found in more samples than allowed and this was warning of potential problems.

What was done?

Usually, coliforms are a sign that there could be a problem with the treatment or distribution system. Whenever we detect coliform bacteria in any sample, we do follow-up testing to see if other bacteria of greater concern, such as fecal coliform or E. coli, are present. **We did not find any of these bacteria in our subsequent testing, and further testing shows that this problem has been resolved.**

For more information please contact Dale Gatewood at 859-873-7334.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartment, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail

This notice is being sent to you by the Northeast Woodford Water District.
