DEFENDANT)	

ORDER

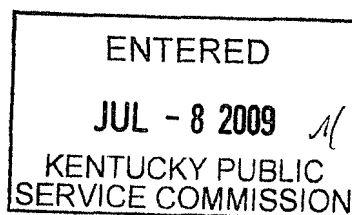

On December 8, 2008, Julia Lynne Johnstone (“Complainant”) filed a complaint alleging that Defendant, South Anderson Water District (“South Anderson”), charged her account \$421.03 for repair and replacement of a damaged meter box and metering equipment charges, which she disputed. Complainant further alleges that on or before November 8, 2008, as the result of her not paying these charges, South Anderson illegally disconnected her water service. On December 24, 2008, South Anderson filed its answer denying the Complainant’s claims. On May 11, 2009, Commission Staff served its first data requests to both Complainant and South Anderson. Responses to the data requests were due no later than May 20, 2009. South Anderson filed its responses to Commission staff’s data requests on May 19, 2009. To date, Complainant has failed to file her responses to the data requests.

The Commission hereby orders Complainant to file responses to Commission staff's first data requests on or before July 10, 2009. Failure to respond to Commission staff's request for information on or before July 10, 2009 will result in the dismissal of this complaint.

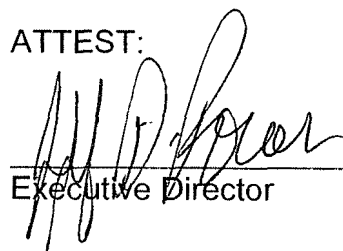

IT IS THEREFORE ORDERED that:

1. Complainant shall file responses to Commission staff's first data requests on or before July 20, 2009.
2. Failure to respond to Commission staff's request for information on or before July 20, 2009 shall cause dismissal of the complaint.

By the Commission
