

requests five million dollars for “pain and suffering, any future and current medical damages, destroyed property,” and violating “civil rights [and] liberties, court cost[s], interest [and] any other proper relief for which Ms. Marshall would be entitled”⁴

Pursuant to 807 KAR 5:001, Section 12(4)(a), the Commission, upon receipt of a formal complaint, must determine whether the complaint states a *prima facie*⁵ case. A *prima facie* case exists when, taking the facts set forth in the complaint as true, the complainant is entitled to the relief requested. If the Commission finds that the complaint does not state a *prima facie* case, the Commission has the authority to dismiss the matter.

Having reviewed the pleading and the statements contained therein, the Commission finds that this formal complaint before the Commission fails to state a *prima facie* case. The Complainant’s allegations appear to concern issues of tort law or private property law, all of which are beyond the jurisdiction of this Commission. Additionally, the Complainant makes specific requests for monetary damages for relief. The Commission does not have the statutory authority to require a utility to pay monetary damages. Only courts of law have the jurisdiction to require a utility to pay monetary damages to the complainant.

For these reasons, the Commission finds that this complaint should be dismissed and removed from the Commission’s docket.

IT IS THEREFORE ORDERED that the complaint is dismissed for failing to state a *prima facie* case and this matter shall be closed and removed from the Commission's docket.

DEFENDANT

COMPLAINT

Connie Marshall, Complainant states that Houssam Abdallah (President and CEO) and Global Connections:

- 1) Illegally and fraudulently charged Ms. Marshall for telephone services that they did not provide.
- 2) Knowingly allowed Ms. Marshall to be attacked and tortured numerous times on her telephone by manipulating telephone frequencies (microwaving).
- 3) Knowingly allowed Sandra Griewe (someone in Portland Oregon) and numerous other persons to intercept, reroute, disconnect, torture, torment and harass Ms. Marshall on her telephone. (see page 6 - and listen to tape submitted with this complaint)
- 4) Knowingly blocked Ms. Marshall's fax machine and any internet service (dial up) she tried to use with this company did not go through.

Ms. Marshall is requesting that she receive financial restitution in the amount of two million dollars (2,000,000.00) together with her cost herein expended and interest upon such judgment at the legal rate; and any and all other proper relief to which Ms. Marshall would appear to be entitled. Ms. Marshall states that she is already suffering

physical damage from the torture she has endured “microwaving”. Therefore, Ms. Marshall is also demanding financial compensation in the amount of thirty (30) million dollars for pain and suffering and any future medical problems do to the fact that she does not know the long term affect on her health the “microwaving” will cause.

Below is part of a log of events regarding problems with Global Connections taken from a master log of events:

Long distance not working, Talked to Quin, he stated that it was now working, but I would need to call 1-866-666-4411 each time I made a long distance call and then put in my long distance number. He stated didn't they tell you that? I stated no, (static was on telephone).

January 2, 2007 – 5:20 p.m.- **Option buttons not working correctly on telephone/ **Banking****

Called the bank to transfer money from one account to another to pay bills, if I pressed the two (2) button the recording would give me the three (3) option and if I press the one (1) button it would give me the wrong option. I almost transferred money to the wrong account. This has happened previously and I had to pay out over three hundred fifty (\$350) in overdraft fees, and I thought that I made a mistake, however now I know that the people on my computer and phone have all of my personal information, and can cause me problems with my banking.

January 7, 2007 – 12:10 a.m.

After speaking to Henry Lewis from an additional office phone January 6, 2007
sometime between 12:00 noon – 5:00 p.m., Henry called me from his home phone
at my home phone which is and stated that every since he spoke with me at my
office he has had problems with his home phone. He stated that his phone kept going “dead” and
when he picked it up their was not dial tone. He asked me to call him back and I told him to hang
up and I would. When I picked up my phone to call him back my home phone was “dead.” I

called him back on my cell phone and told him that now my home phone was dead. Approximately ten minutes later I picked up my phone and it had started working again.

January 9, 10 or 11, 2007 (not sure of day) 5:30 a.m.

Called 1-888-346-3704 AOL Tech Support. I talked to Nathan in Billing, he stated that I had the Billing Dept., though I had called the Technical Dept. He transferred me to that Dept., they tried to get me on line and could not get me on line. They stated there was some kind of technical glitch.

January 9, 2007 – 11:10 pm

Called Tracy, my daughter Tracy stated what is that noise, don't you hear it? I said no, she stated she could hear a screeching noise on her phone the entire time that we talked.

January 11, 2007 – 6:15 a.m.

I have AOL in my office (which is not working & has not worked for 4 months). I tried to get on line at my home. Called AOL and talked to someone named "Maged." He could not get me online.

January 10 or 11, 2007

Talked to someone named Mike at AOL. He told me to do a control-alt-delete on my computer to bring up the Windows Task Manager and to go under Processes and take out some files. Each time I took them out they repopulated themselves in my computer. He stated that someone has attached themselves to my computer.

January 11, 2007 – 7:05 a.m.

Talked to Frank at AOL. I still cannot get on line.

January 12, 2007 – 11:10 a.m.

Telephone rang, I picked it up and it clicked off.

January 13, 2007 – 10:15 a.m.

Turned on computer at home and opened my file documents. Three files were copied they begin with the wavy line ~ and were copies of my files. I was able to delete them but I know that they are still on my computer, because on January 10 or 11th, AOL told me someone has attached themselves to my computer.

January 14, 2007 – 11:40 p.m. **Banking – BB&T**

Tried to access my account from my home telephone, just to check on my account. When I pressed option one (1) on my home phone I got option two (2). I put in the wrong password, by mistake, and I was still able to get into my account. I was trying to get into my primary account and the first message I received is that I was \$68.00 overdrawn and quoted banking charges. No matter what option button I pressed I would still get the wrong option. I hung up and called back and the message that I received gave me a positive balance of \$257.00. I was able to get a representative and she transferred me to "Tracy Hatcher" and she stated that she would close that account and told me to go to the bank Tuesday to open another account.

January 15, 2007 – 10:15 a.m.

Went into my file folder and noticed that the following files are now on my computer, ~\$rrupinlouiskythree and ~WrL3020.tmp. I deleted ~\$rrupinlouiskythree, I tried to delete ~wrL3020.tmp and the message that I received stated, "Cannot delete it, it is being used by another person or program." The files are now increasing and I now have on my computer

January 17, 2007 – 8:30 a.m

Calling Prepaid Legal at

Static on phone

January 18, 2007 – 10:40 a.m. - Attacked

Talking on phone to Vicki Page and the phone was clear. Later in the conversation she could hear noise on phone. I could not hear noise but felt a signal (like a radiating frequency) coming through the telephone that really hurt my ears and head. My hands started shaking from the frequency because it feels like an electrical shock and my bottom lip started to quiver. I could not keep the phone to my ear. I told Vicki I would call her back on my brother's phone because he has a speaker option. My left ear has been aching since the signal came through the phone.

January 22, 2007 – 9:40 a.m. - Attacked

Talking to Mr. Hicks at F.B.I. in Louisville, Ky. Told him about all of the problems with the telephone and ask if they could do an investigation, also told him I had previously called and told someone briefly about the phone problem. I also ask him if they received the criminal complaint forwarded to them by Jim Barr at the United States Attorney General's Office in Louisville. All of a sudden the radiating frequency started coming through the telephone. It hurt my ears and my lip felt like an electrical current was running through it, also my head started aching. I told Mr. Hicks that I felt the signal coming through the telephone. He stated he did not hear anything and I told him this signal you can not hear but you can feel it. I also told him that this is the second time I have been talking with him on the phone and that something strange started happening with my phone while speaking or after speaking to him. (see "May or June 2004" under Federal Bureau of Investigations).

January 24, 2007

Was talking to Mr. Hicks about the complaint that I sent to the United States Attorney General's Office that was forwarded to their office. I asked to speak to Brett Johnson, a Supervisor. Mr. Hicks told me that the United States Attorney General's Office in Louisville Kentucky told them not to do anything (an investigation). This crime included three assaults on me that sent me to the hospital twice, once by ambulance. It also includes a cd of my prior coworkers discussing killing me and taking me to the KKK and having a bonfire and leaving me dead in Bardstown Ky. There is a court reporters transcript that is notarized that accompanies the cd/and tape and I also typed a

transcript. Also on the cd Mark Yates is discussing a woman that he handcuffed in a house and a house they liked to go to because it is covered all the way around.

January 2007 (not sure of date)

Global told me that I now have to call _____ before I can dial a long distance call. When I first started my service they told me I needed to dial _____ however they were no longer using this number for long distance calls. I was also given _____ by another Global person that stated she did not know what the other two numbers were for, however I could never get that number to work. The only long distance number I can use now is for long distance calls is _____

February 2, 2007 - 2:25 a.m.

Called AOL and kept trying to get on-line. Some days I would spend **four** or **more** hours trying to get on-line. I got very frustrated because I would get sent around in circles on the telephone with AOL and they would have me delete AOL and reload over and over again, and nothing ever worked. My heart started racing and I felt as if I was going to have a **heart attack**. I called 911 and then I called them back to cancel because I have already had people in my house on two or more occasions stating that they were police and without badges. The ambulance came and I told them I was "Ok," because I was afraid to let them in due to my previous experiences when I sought assistance from the police.

February 2007 (not sure of date)

I called AOL (American On Line), telephone number _____ I spoke with a female that stated that she was a manager in billing and told me that her name was "Priti." I asked for a refund as I had not been on-line for four months. I could not access the internet at my home or office. She stated that she would refund me the \$14.95 per month for three (3) months of service and would not charge me for January 2007. She gave me ticket # _____

***"Not Suprising"** when I called the ambulance AOL (American On Line) immediately hung-up and the internet worked for about 2 hours and then the problems started again. This was further validation that what is happening with my computers, telephones, cell phones and fax machine is being deliberately done and corrupt officials or directly or indirectly involved in terrorizing me.*

February 2007 (not sure of date)

I called AOL regarding the refund as it was not in my account. I was told by someone else there that I would not get all of my money back and that they would only give me back one month. To date, I have not received my money back.

February 2007 (not sure of date)

I tried to use Earthlink to get on-line, but I could tell that my service is being "blocked," just as it has been with my telephones and my service with AOL (American On Line). I cancelled Earthlink the same day, as I could not get on-line. They took \$50 (fifty dollars) out of my account and I am still trying to get my money back.

"Due to the illegal "blocks" on my service denying me the right to use the internet, my fax machine for long distance and my telephones I may have lost \$50 (fifty dollars)."

February 5, 2007 - 5:05 a.m.

Computer running very slow and has a strange humming noise.

February 15, 2007 – 1:30 p.m.

I called the U.S. Attorney General's Office in Louisville, Kentucky to find out if they received the 2nd Registered Letter that was mailed to David Huber, *restricted delivery*. Their telephone number is (502) 582-5811, Danielle answered the telephone and when she answered someone imitating a D.J. was also on the line as if they were already on my line and they stated, "*Hello, Master B here on the radio ---- on here right now,*" and then they faded out. I could tell it was not a radio station. The voice sounded like a young white male. I ask Danielle if she heard that and she said, "yes." I ask her if she knew what it was and she said, "no." I was home alone.

February 17, 2007 – 12:45 p.m. – 1:30 p.m. – at my home address 1814 South 23rd Street

I decided to try to get on-line with the internet service "People PC." I put in the People PC cd and when it requested my telephone number, I entered my telephone number. The message in the computer stated that I could not use my telephone number because someone already had that number. As this is my telephone number and the first time I have used People PC apparently "fraud" is being committed. I called People PC and they told me that my telephone number (502) is being used by the following person:

Portland, Oregon

They further stated that she started using this telephone number on January 6, 2007. I thought this was strange because she is in Portland, Oregon, therefore how could she be using a 502 area code. Also, I just acquired this number the last of December 2006. They told me that they could not do anything to assist me and that I would need to call Customer Service on Monday. They told me to use my cell phone number to set-up my account with them.

February 19, 2007

I called People PC and told them the problem and they stated there was nothing that they could do. I ask to speak to a manager and they transferred me to a voice mailbox and I left a message, I did not receive a return call.

February 19, 2007

I called Global, my telephone carrier and told them that fraud is being committed. They stated that there was nothing that they could do and that I needed to talk to my telephone line carrier, Bell South, and that they could handle the situation regarding illegal use of my telephone line because they control all of the outside lines.

March 6, 2007 – 2:25 p.m.

I called Global's outgoing long distance # 1-877-343-0373 and put in I got the local FBI. I said is this Kentucky or Washington. They hung up. After they hung up the message came back on asking me to enter the number that I wished to dial, even though I had already dialed my number, therefore my number was rerouted back to Kentucky and did not go to Washington.

I called and spoke with Marcus at Global Connections. He stated that he does not know how to handle this and stated that he would transfer me to a Supervisor and I was disconnected. I called back and spoke to Asia and Drey, however they could not assist me.

March 15, 2007 – 7:45 p.m.

I was talking to Freeman Davis. His tele number is Echo on Phone.

March 15, 2007

Tried to make telephone call, phone calls were constantly being intercepted. I called Global and was hung up on by a young black girl, who stated, "Why don't you use your cell phone, go to the telephone booth." I told her I was paying for service through them and I expected it to work. I called back and talked to another black girl that sounded like the same person. She stated, that she was a manager and that her name was Tracy. I reported the other girl, however she sounded exactly like the other girl. My calls still did not go through.

March 26, 2007 – 9:00 a.m.

I was trying to get on the Internet and was continuously unable to access the internet. I called, "People PC" at _____ and spoke with a guy with a foreign accent (possibly from India). Instead of him helping me, he seemed to be making my computer problems worse. Ripples like waves started running down my computer. I started receiving a lot of pop up boxes and two of them stated the following: "Haylay.Mr.Dickson" and "Killu." I consider the the first one to be a sexual comment, "Hey lay Mr. Dickson" and I consider the other to be a threat, "Kill You." When I tried to get on line I received a message that stated, "The port is already in use." "Another device is causing conflict with your modem." My screen eventually went black and I was never able to get on line. The person on the phone from People PC, then stated, "You need to contact your manufacturer, if you want to stop those boxes from popping up on your screen."

March 28, 2007 – 5:15 am

I called 1____ 0 F.B.I. The call seemed to be rerouted; the person made a derogatory statement and hung up on me.

April, 2007

I contacted People PC and told them that everything the F.B.I. has been doing illegally regarding violating the Patriot Act, NSL (National Security Letters), and the Exigent letters is in the news. I told them that I want to use my home phone number as my internet telephone number, as it is ridiculous for me to use my cell phone number as my internet number. They told me that they would change it to allow me to use my home telephone number.

April 2, 2007

Tried to get on line, I kept getting the following message, "(RAS) Error 678 There is no answer," I also got the following message, " Connection Error 691, Verify User Name, Password Invalid." There were also wavy lines running down my computer screen, and I think these were coming from my cell phone (as it apparently has an illegal tracking device on it) as I had to call People PC, tele number.

1-877-896-3696 from my cell phone because I was using my landline phone to try to connect to the internet.

April 2, 2007 - 4:27 P.M.

Finally got on the internet, however I was knocked back off of line.

April 6, 2007 – 3:15 a.m.

Tried to get on the Internet. Received (RAS) Error 691. Busy signal like phone off hook. Received message "Bartshell module has encountered a problem and need to close. We are sorry for the Inconvenience.

April 9, 2007

I have not been able to use my computer to get on the internet since April 2, 2007. My computer will no longer work on the internet, due to the destruction that they have done to my computer.

April 11, 2007 – 3:30 p.m. – 4:15 p.m.

Tried to call Jessie Jackson's office in Chicago, and Rev. Coleman in Louisville, Ky. Telephone cut off 5 times, calls would not go through.

April 21, 2007 – 2:08 p.m.

Calling the bank and tele calls were cut off twice.

April 27, 2007 – 4:25 p.m.

Talking to Henry, signal coming through phone hurt ears.

May 4, 2007

Lights Blinking. Tape player cut off twice. Also, noticed street light in front of Juan's house get's dim, then gets bright, then get's dim. This continued for several days.

May 10, 2008 – 9:00 a.m. – 9:30 a.m.

Telephone dead. Tried calling my home phone from my cell phone while I stood next to it and it did not ring.

May 11, 2007 – 4:00 p.m.

Picked up telephone, internet noises on the telephone. I had not used internet.

Some people I talked to at Global were Maxine Alagar and Warren.

May 11, 2007 – 5:16 p.m.

Received a call from

May 23, 2007 – 2:30 p.m.

Call from tele # 10 Out of Area. I did not answer this call.

May 25, 2007 – 3:07 p.m.

Called Manpowe someone picked up and hit two buttons and call went to a fax machine. I called Manpower back and they stated they did not pick up and this was not a fax machine number.

May 25, 2007 – 6:20 p.m.

Tried to call Chase Bank to check balance. Telephone buttons disabled, could not choose options on phone line. Telephone cut off.

July 11, 2007 – 10:25 a.m.

Tried to call U.S. Court of Appeals, buttons on phone were disabled. I called Global (my telephone carrier), I said hello and she said hello. I could hear her, but she could not hear me. I called back and talked to someone name Candace.

August 30, 2007

Talking to Vicki Page. Cut off three times.

September 18, 2007 – 6:50 a.m.

Tried to use long distance code to call out, could not call out on phone. Telephone was dead

September 20, 2007 – between 8:30 a.m. – 9:30 a.m.

Rose called me or either I called her. I could hear her, but she could not hear me. We were cut off several times before we finally made a connection.

October 2007 – 9:05 a.m. on a Saturday

Guy with a foreign accent (Indian accent) called and wanted to know if I had satellite or cable. Sounded like one the same Indian guy that (see March 26, 2007 under Louisville Metro Police***) I spoke with on March 26, 2007. I hung up and did not give him an answer.

October 7, 2007 – 7:05 a.m. Sunday

Woke up and turned on lights in bedroom. All lights in the bedroom came on and then went off (total black out in bedroom only) and then came back on.

October 2007

Black guy named Ron from LG&E came, said everything checked out. He said lines on side of house were fine. He did not go up on the lines, he only checked lines on the side of the house.

October 2007

Lights blinking periodically in bedroom for several days.

October 2007

If I would reach for the lamp in my bedroom it would come on before I turned it on, when I take my hand down the light turns off. Each time I reach for it, it comes on and when I take my hand down it turns off. This has been happening for several days.

October 14, 2007 – between 8:00 a.m. – 8:30 a.m.

Listening to and taping gospel music on B-96.5 while I am getting ready for church. Tape player kept going off and on. I ignored it and decided to leave the tape in the tape player for evidence. Everytime I walked toward the tape player it would come on, if I walked away from it, it would go off. I felt as if I was being watched. Once when they turned the tape player off I started talking and they left the tape player off the entire time I talked. After I finished talking they turned the tape player back on, so I knew that they could hear me. I called 911 twice and I told them not to send a police car, however I do want the 911 call to be taped to provide me a record of what is going on.

September 16, 2008 – (around 12:15 p.m.)

Received a call from Chairayle Scott (a lady who has also had problems with corruption). Chairayle stated that she tried to contact me three times before she finally got me on the fourth call. She stated, "Do you have someone living with you named Morris Scruggs because I have called you three times and each time I call I get Morris Scruggs." A frequency that I could not hear but could feel was coming through the telephone while I spoke with Chairayle.

Chairayle and I were supposed to attend a meeting that night with the Judiciary Club and she was calling to tell me that she would not be able to go. Her telephone number is The next day we were suppose to meet at my house and her telephone was disconnected.

I contacted the Kentucky Utility Commission, Telephone number () and left voice mail messages for Susan Dunn. I called her a third time and she stated, "I couldn't call you back because you left me the wrong area code, you left . I told her that I do not even know the location of that area code and that my area code has always been I told her apparently someone had tampered with the message I left for her. I told Susan she needed to take a report regarding this issue and she refused. She then stated that she could not take a report regarding Morris Scruggs being on my telephone.

I called the telephone reporting unit and they stated that they could not take a report. The person I spoke with was Robin Oates for the record I have tried on at least three occasions to get the telephone reporting unit to take a report and they constantly state that they cannot.) I called Sheila at Chief Whites Office (Louisville Metro Police) and told her that I

needed a report taken by the telephone reporting unit and explained to her what Chairayle had stated to me. Sheila stated, "Oh she is Disturbed." I stated, "No she is not disturbed, Angela Crenshaw is not disturbed, Elizabeth Elliot is not disturbed, and I am not disturbed." Sheila then told me to report it to the Merit Board. I called the Merit Board and spoke with a man named Higgs. When I mentioned Chairayle's name, he stated, "Oh, you know Chairayle."

I have a problem with the comment made about Chairayle, because corrupt officials, including the police are making false claims, committing defamation libel, slander and fraud regarding the mental capacity of several women (mostly minorities) -- and including myself - who have reported corruption after being terrorized, tortured & denied rights by them. Making these statements behind the backs of these women and circulating these false claims are done to make the women seem unstable so that noone will believe what we are saying is true. I have personally experienced situations where it is evident that false claims are being made regarding my mental well being.

Called F.B.I. in Louisville, Kentucky— _____ was talking to Phillip Codispoti (intake person), I was transferred to him by the Receptionist. I was telling him about the fraudulent birth certificate that I received. I told him that I originally thought that my middle name and mother's last name were changed, but also found other discrepancies. I have also discovered that the birth certificate in its entirety is a fraudulent document and is not a document that would have been sent by the Bureau of Vital Statistics. I asked him to take a report. He stated that he would contact the person I originally spoke with – Denise Jones – at the Commonwealth of Kentucky Bureau of Vital Statistics.

He then asked me if I wanted him to get back with me and I stated, “of Course because this document is fraudulent and it was paid for by me with a postal money order and I have been going through all of this for years and reported it to the F.B.I. but received no assistance.” I further stated that this would be a federal crime and he stated that he would pull the previous complaints that I filed.

While I was talking with Phillip Codispoti at the Louisville, Kentucky F.B.I. a call beeped in from Choice America 4
